Helena, Montana, Aug. 31st, 1908.

To His Excellency, Edwin L. Norris, Governor of the State of Montana:

Sir:—Under the provisions of the act creating this Commission and defining its duties, Section 33, we respectfully submit for your consideration the first annual report of this Board covering the period from March 1, 1907 to August 31st, 1908, inclusive.

On December 6th, 1907, a preliminary report of this Department's work up to November 30th, 1907, was filed with former Governor Joseph K. Toole, as follows:

"To His Excellency, Joseph K. Toole, Governor of the State of Montana:

Dear Sir:—Section 33 of the Railroad Commission Law of the State of Montana (Chapter 37, Laws 1907, page 69) requires the Board of Railroad Commissioners thereby created, to make and submit an annual report to you containing a complete account of the transaction of its office, together with such facts, suggestions and recommendations as may be deemed necessary; and also a statement of the number of accidents investigated by the Board and the number of persons killed or injured in them, and, generally the nature and cause of such accidents. It is the desire of the Commission, in every particular, to fully comply with this law, and to give forth the best possible results thereunder to the people of the State of Montana, but a full report of the character indicated by this law at this time would be of little value, considering the short time the Commission has been in existence. We believe it far better, when the first report of this Commission is published, to have one containing information of value and reflecting credit on the State, and we therefore hand you this communication in lieu of a report, promising you at a later date, but within the year, to hand you a report in detail, complying fully with the requirements of the law.

"The law went into effect on the 26th day of February, 1907, and the members of this Commission thereafter, on the first day of March, 1907, duly and regularly qualified and entered upon the discharge of their duties, and ever since said last mentioned date, the Board, and each of its members, have been busily engaged in familiarizing themselves with the law; its application, the procedure thereunder, and the lines of railroad operated in this state; the roadbeds, track facilities, rolling stock, depots, and the like; and also the classification of rate, charges and schedules for the transportation of freight and passengers.

"As required by law, we have fixed the rates of charges of all railroad companies operated in the State of Montana for the carriage of freight, passengers and express, and have issued tariffs which are now in force and effect and being complied with by all railroad companies affected.

"We have had many formal hearings in the interest of the proper administration of the law; have investigated a number of wrecks and accidents, and have encountered much work and study in laying the proper foundation for the effective administration of the law, systematizing the files and records of the office, and in adopting suitable rules and regulations.

"Any further information, data, or report which your Excellency may desire will be gladly furnished you at any time you may ask for it.

"The Commission has full and complete data and records of all of its work and proceedings to the present date.

Respectfully submitted,

(Signed)

ORGANIZATION.

Section 7 of the Railroad Commission Law provides that the State shall provide the Board with suitable offices in the State Capitol Building. As there were no vacant offices in the Capitol at the time the members of the Board qualified the Commission met in one of the House Committee rooms on March 1st, 1907, and completed the organization of the Board by electing B. T. Stanton, Chairman and appointing H. K. Howry, secretary and Miss Alma Mohr, stenographer. Upon the adjournment of the Tenth Legislative Assembly the State Furnishing Board directed that the offices used by the Speaker, Chief Clerk and Sergeant-at-Arms of the House together with the three committee rooms adjoining should be occupied by the Railroad Commission for the use of its members and employees.

CONFERENCE WITH OTHER COMMISSIONS.

With the inauguration of the Commission's work came the organization and building up of an entirely new state department. The work of the Board necessarily being largely one of handling multitudinous details in connection with freight, passenger and express rates, it was early appreciated that the experience of established commissions would be of much value with reference to organization.

This Commission having received an invitation from the Railroad Commission of Washington to visit Olympia and there meet in joint conference with the Oregon and Washington Commissions, proceeded to Olympia, where on April 10, 11, 12 and 13th, 1907, the three Boards held conferences. Railroad Commission work in all its phases was gone into thoroughly and much information of value to this Board, was acquired.

From Olympia the Commissions of Washington, Oregon and Montana proceeded to Portland, where on April 15, 16 and 17th, the members and respective secretaries, attended with much profit the hearings on the famous Spokane rate case, before Judge Prouty of the Interstate Commerce Commission.

CONGESTION OF FREIGHT TRAFFIC.

At the beginning of the work of the Commission, it was confronted by a serious condition in connection with the congestion of traffic on the two trans-continental lines crossing our state. So serious had this become that the volume of commodities offered to railways for transportation was greatly in excess of the equipment and power to handle, or the trackage to accommodate. This situation resulting from the unprecedented increase in the volume of trade between Northwestern and Eastern markets, without any proportionate addition to transportation facilities to care for the same, resulted not only in great inconvenience but financial loss as well to both consignors and consignees.

HELPING TO AVERT FUEL FAMINE.

Having in view the scarcity of the coal supply at the principal consuming points in the State, during the winters of 1906 and 1907, and realizing that owing to increased congestion of other commodities, the movement of coal would be retarded, the Board issued on June 15th, 1907, a circular letter urging the necessity of dealers and consumers to anticipate a coal famine by earlier shipments and also to arrange with the railroads to give coal shipments preference until such time as the towns and cities along their lines were well stocked with fuel. The records at the various stations show that the citizens very generally co-operated with the Commission in this respect as the receipts of coal at the principal points in the months of July, August and September, were from 40 per cent to 70 per cent greater than the same months of the previous year.

NATIONAL ASSOCIATION OF THE RAILWAY COMMISSIONERS.

Chairman Stanton, representing the Montana Commission attended the Nineteenth Annual Convention of the National Association of Railway Commissions held at Washington, D. C., October 8th-11th, 1907. At this meeting the following states were represented by one or more members of their respective Commissions: Connecticut, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Michigan, Minnesota, Montana, Nebraska, New Jersey, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Carolina, Washington, Wisconsin and five members of the Interstate Commerce Commission. The discussion of such problems as rates and rate making, safety appliances, uniform classification, railroad taxation, demurrage, physical valuation of

property of railroads, etc., by men who have been members of their respective boards for periods of ten to fifteen years, was of great advantage to newly created commissions.

Our state was honored by the National Association in the assignment of one member of the Montana Commission on one of the important committees, viz: Railroad taxation and plans for ascertaining fair valuation of railroad property.

CONCLUSION.

One of the chief benefits, if indeed not the greatest advantage to the citizens of the State by the creation of a board of railroad commissioners, is in having a tribunal with comprehensive powers whose offices are always open, ready to receive and act upon any application within its authority, thus establishing an official medium whereby the public can obtain prompt attention and adjustment of any grievance as to service rendered by the common carriers. It has been the experience of the Montana Railroad Commission that a very large percentage of complaints, can be satisfactorily adjusted at enforced conferences between shippers and carriers, thus expediting the result, always having in reserve the authority to order formal proceedings in the premises.

Respectfully submitted,

NO. 8. FORMAL.

JAMES IVEY,
vs.
GREAT NORTHERN RAILWAY COMPANY.

Subject: Agency at Frazer, Montana.

Result: On investigation the Commission held that the business transacted at Frazer did not warrant the establishing of a Station and Agency.

Complaint filed June 28th, 1907.

Matter dismissed July 22nd, 1907.

On June 28th, 1907, James Ivey, a dealer in general merchandise at Frazer, Montana, filed complaint with the Commission requesting that a depot be opened at the point mentioned and an Agent installed therein. The Commission requested the Great Northern Railway Company to furnish figures showing the freight and passenger earnings at Frazer and such data was accordingly submitted by the defendant Railway Company.

It was shown that for the period between July, 1906, and April, 1907, inclusive, the total revenue derived from passenger business was \$196.60, while the freight revenue for the same months amounted to \$86.02.

The complainant was advised that in view of the limited amount of business at Frazer station, the Commission did not feel warranted in making

an order requiring the defendant Railway Company to maintain a depot and agency at that point. A copy of the earnings at Frazer as above referred to was furnished the complainant and he was advised that the Commission would be pleased to consider any figures that he cared to file contradictory of the figures submitted by the Railway Company.

Under date of March 6th, 1908, the complainant again addressed the Commission requesting the establishing of a station and agency at Frazer, stating that the business at the point mentioned had increased since the date the first complaint was filed. The Commission secured from the Great Northern Railway Company figures for the months of May to December, 1907, inclusive, which showed that the revenues at Frazer for passengers and freight were \$238.15 and \$927.99 respectively, the total earnings averaging \$145.77 per month, and held that the business did not warrant the inauguration of station services as requested by the complainant.

See Order No. 4. The station building at Fort Benton was enlarged on request of the Commission and made more comfortable.

On January 9th, 1908, the Great Northern Railway Company made request to the Commission to withdraw the mixed train service established by order of the Commission claiming that the travel on the trains was so light that the company was at heavy loss in running the same.

The Commission set a public hearing to be held at Fort Benton January 20th, 1908. At this hearing it was shown that the travel since the inauguration of the service did not warrant a continuance of the same; the people of Fort Benton and vicinity agreeing. Upon this showing the Commission consented to the withdrawal of the trains.

*ORDER NO. 2.

OFFICE OF THE BOARD OF RAILROAD COMMISSIONERS OF THE STATE
OF MONTANA.

IN RE FAILURE TO REPORT DELAYED TRAINS.

Whereas, under and by virtue of the provisions of Chapter LXV, Laws of 1903, all railroad corporations operating within the State of Montana, are required upon the arrival of a delayed passenger train at the first division terminal within the confines of the state, to notify by telegraph every station on the line of the railroad within the state, the amount of time such passenger train is delayed, and upon the arrival of any such delayed passenger train at each succeeding division terminal, it is likewise made the duty of such companies to notify by telegraph every station on the line of the railroad within the state, which has not yet been reached by said train in its course, the amount of time such train is late.

And whereas, it is made the duty of every operator, agent or person in charge of the railroad's telegraph stations to post a notice in a conspicuous place in the station or waiting room, and when such telegraph station is connected by telephone with a central exchange in any city or town, to promptly notify such central telephone station, the time the train will be delayed over schedule in reaching said station;

And whereas, it has been repeatedly called to the attention of the Board of Railroad Commissioners of the State of Montana, that railroads operating within the state are disregarding and ignoring such law, or making reports and posting notices respecting delayed trains, which are of little, if any value, to the travelling public;

And whereas, for instance, trains have been reported as being one hour late and thereafter reports changed 2, 3 or more times, and the trains, in fact did not arrive at the station from which the report was received until 10 or 12 hours later than the first report given out:

And whereas, such reports are unexcusable and are of great inconvenience and annoyance to the travelling public, and a violation of the law;

And whereas, by means of telegraph, it is a very easy and simple matter to keep track of a train through its entire course from starting point to terminal, and to know the amount of time it is running behind schedule.

Now, therefore, it is hereby ordered that henceforth this law shall be respected and complied with by railroads operating within this state, otherwise the subject will be taken up with the department of the Attorney General with a request to institute prosecutions against such company or companies as shall continue to disregard and violate this law; and in order that all companies operating in this state shall have notice of the disposition of this Board, the Secretary is hereby directed to forward a copy of this order to the representatives of each and every railroad operating within the State of Montana.

In Witness Whereof, the Board of Railroad Commissioners of the State of Montana have unanimously approved and adopted this order this 9th day of October, 1907.

*ORDER NO. 3.

OFFICE OF THE BOARD OF RAILROAD COMMISSIONERS OF THE STATE
OF MONTANA.

IN RE REPORTS OF WRECKS AND ACCIDENTS.

Whereas, under and by virtue of Section 16A of the Railroad Commission Law, Chapter 37, Laws of 1907, it is made the duty of the Board of Railroad Commissioners or some member thereof to investigate and make inquiry into every accident occurring in the operation of any railroad in this state, resulting in death or injury to any person of such gravity as to require the attention of a physician or surgeon, or a property destruction greater in value than \$2,000.00.

And whereas, under and by virtue of Section 17 of the same law, it is made the duty of every railroad company operating any line of railroad within the state, promptly upon the occurrence of any accident such as is above mentioned to report the same to the said Board;

And whereas, the law contemplates an investigation to be made by the Board or its members officially, to constitute a permanent record and for the benefit, protection and assistance of citizens of the State of Montana, and in order to keep the railroads under proper surveillance respecting defects in appliances, machinery, track or road bed;

And whereas, investigation of any such wreck or accident on the line of any railroad, is of little value unless the Board or some member thereof, are unable to be on the ground at the scene of the accident at as early a moment after its occurrence as possible;

And whereas, pursuant to authority of law conferred upon said Board, to make and enforce regulations, the said Board did, on the 13th day of March, 1907, duly and regularly adopt a regulation requiring telegraphic reports to be sent to the office of the said Board at Helena, Montana, within one hour after the happening of any such wreck or accident, which said regulation is as follows:

"All railroad companies operating in the State of Montana are required under the provisions of Section 17 of the Montana Railroad Commission Law, to make communication to this Department by telegram, within one hour after any wreck or accident on its lines, unless conditions are such as to prevent their so doing by causes over which they have no control."

And whereas, notwithstanding, the provisions of the law and of said regulation, railroad companies operating within the state, and particularly the Great Northern and Northern Pacific Railway Companies, have failed and neglected to furnish telegraphic reports of wrecks or accidents occurring upon the line of railroad operated by said companies within the State of Montana.

Now, Therefore, it is hereby ordered that unless the railroad companies operating in this state hereafter respect said law and regulation, an action be taken through the Department of the Attorney General to punish any such road, failing to comply with the law and regulation above referred to. This regulation is not unreasonable and should be complied with in order to enable the Board of Railroad Commissioners to promptly and efficiently perform its duty, and this order is now made and entered with directions to the Secretary to send a copy of same to the representatives of each and every railroad company operating within this state, so that they may have notice of the determination and order of this Board in the premises.

These reports must be made by telegraph and sent at once to the Board of Railroad Commissioners at Helena, Montana, in accordance with said regulation, and unless there is good and sufficient excuse for failure to send them or for delay in sending them, the Attorney General will hereafter be requested to institute prosecutions against the offending company.

In Witness Whereof, the Board of Railroad Commissioners of the State of Montana, have, on this 9th day of October, 1907, unanimously approved and made and entered this order.

ORDER NO. 4.

IN RE, DAYLIGHT PASSENGER SERVICE FOR FORT BENTON AND POINTS
ON THE LINE OF THE MONTANA CENTRAL RAILROAD BETWEEN
GREAT FALLS AND HAVRE.

Whereas, a numerously signed petition was presented to this Board by residents of the City of Fort Benton, in Choteau County, and others residing on the line of the Montana Central Railroad between the City of Great Falls, in Cascade County and Havre, in said Choteau County, praying that the subject of daylight train service on said railroad, and the necessity and desirability thereof for the accommodation and to meet the needs and demands of the travelling public, and of persons residing in the cities of Great Falls and Havre and intermediate points, be fully investigated and the subject taken up with the officers of said railroad company in an endeavor to secure such passenger service; and

Whereas, a hearing was duly and regularly ordered and held on the 26th day of September, 1907, at the said City of Fort Benton, at which examination was made of witnesses, duly and regularly called and sworn, respecting the conditions complained of; and

Whereas, the Commission, after having heard and considered the testimony offered and introduced at said hearing, made personal investigation of the subject matter and determined that something should be done by the railroad company to meet the demands of the complainants, it appearing that the passenger train service now afforded, is not adequate, and not sufficient for the convenience of the people, between the said points; and

Whereas, the subject was by this Commission thereupon taken up with the officers and representatives of said railroad company and fully considered in conference, as a result of which it has been mutually agreed that the position of the complainants is well taken and that their request and demand should be granted.

Now, therefore, pursuant to such mutual understanding and agreement with the representatives of said railroad company, and having fully considered all of the conditions, the cost of operation of an additional passenger train between said points and the number of people affected, we have decided and agreed with the representatives of said railroad company that a mixed train shall be run in daylight between said points, and accordingly it is ordered and said Montana Central Railway Company is hereby directed to run a mixed train from Great Falls to Havre, leaving Great Falls daily, Sundays excepted, at the hour of 8 o'clock A. M., said train to reach Havre on a schedule to be fixed by the said railroad company, at least in time to connect with No. 2, operated on the main line of the Great Northern Railroad Company, and to make stops at intermediate stations between Great

Falls and Havre; and likewise to run such a train, giving like service, from Havre to Great Falls daily, Sundays excepted, leaving Havre at 7 o'clock A. M. and arriving at Great Falls in time to connect with No. 237 of the Montana Central Railroad, operated between Great Falls and Butte, which in accordance with schedule, leaves Great Falls at 3:10 P. M.

This order, pursuant to mutual understanding and agreement will be in full force and effect on and after the 11th day of November, 1907, and until the further order of this Commission; and the Secretary is instructed to furnish the proper officers of said railroad company with a true and correct copy hereof.

ORDER NO. 5.

OFFICE OF MONTANA RAILROAD COMMISSION.

IN RE PASSENGER SERVICE FOR SOMERS BRANCH, GREAT NORTHERN
RAILROAD.

Whereas, it appears that the Great Northern Railway Company now owns a right-of-way, road-bed, and track laid thereon, connecting with its main line via Kalispell, extending from Somers to Kalispell, over which said road freight is daily hauled by said company, and

Whereas, it appears that the town of Somers is a thriving lumber and agricultural center with a population of approximately one thousand people, and

Whereas, it appears that said town should be furnished with passenger train service for the benefit and advantage of its residents and the numerous population adjacent thereto, and for the accommodation of the travelling public, and

Whereas, there is no good or sufficient reason, or any reason, at all, why said railroad company should not provide passenger train service over said line, and

Whereas, having fully investigated and examined the circumstances and surrounding conditions, both respecting the interests of the people and the facilities of the said company to furnish such passenger service, pursuant to authority of law,

Now, therefore, it is this day unanimously agreed by the Montana Railroad Commission that the Great Northern Railway Company should furnish a daily passenger coach to be run over said branch in connection with its freight, such train to run on schedule, and accordingly.

It is Hereby Ordered, and the said Great Northern Railway Company is hereby directed and commanded, pursuant to this order, to furnish a mixed passenger train service to be run on schedule between Kalispell and Somers, giving such service daily except Sundays; and to provide such a train, which shall leave Kalispell in the morning in time to connect with the regular morning passenger train No. 245, arriving at Kalispell from Columbia Falls at 9:15 A. M., and to provide a like return service, connecting with the regular evening passenger train No. 248, leaving Kalispell for Columbia Falls at 8:45 P. M.

This order to be effective from and after the 20th day of November, 1907, and the Secretary is hereby directed to furnish and serve upon the proper officials and representatives of said railroad company, a true and correct copy of this order.

ORDER NO. 6.

THE STATE OF MONTANA, DEPARTMENT OF MONTANA RAILROAD
COMMISSION.

IN THE MATTER OF THE CHANGE OF TRAIN SERVICE OF THE NORTH-
ERN PACIFIC RAILWAY COMPANY BY DISCONTINUING THE OPERA-
TION OF PASSENGER TRAINS NUMBERED 7 AND 8 OPERATING
BETWEEN HELENA, MONTANA, AND LIVINGSTON, MONTANA,
PASSENGER TRAIN NUMBERED 17 AND 18 OPERATING BETWEEN
BUTTE, MONTANA, AND LOGAN, MONTANA, AND PASSENGER
TRAINS NUMBERED 7 AND 8 OPERATING BETWEEN MISSOULA,
MONTANA, AND WESTERN POINTS WITHIN THE STATE OF MON-
TANA.

The above entitled matter coming on duly and regularly to be heard before the Montana Railroad Commission, at its office in the Capitol Building in the City of Helena, Montana, on the 9th day of November, 1907, there being present Nathan Godfrey, acting Chairman, B. T. Stanton and E. A. Morley, all the members of the Commission, and the Northern Pacific Railway Company being then and there represented by Messrs. Wallace and Donnelly, attorneys at law; and Mr. E. C. Day, attorney at law, appearing on behalf of the people of Helena and vicinity, and Mr. A. H. Burleigh, attorney at law, appearing on behalf of the people of Sanders County and vicinity, and Mr. John G. Brown, Assistant Attorney General of the State of Montana, appearing for the State, testimony was introduced on the part of the railroad company, and of the people objecting to the change of the railroad service as proposed, and the testimony being concluded and the Commission being fully advised in the premises from the evidence as introduced and the arguments of respective counsel, finds:

That the discontinuance of the passenger trains operated by the Northern Pacific Railway Company in this state numbered 7 and 8 operating between Helena and Livingston, and passenger trains numbered 17 and 18 operating between Butte and Logan, and passenger trains numbered 7 and 8 operating between Missoula and Western points within this state, will work a hardship upon the travelling public and the people in the towns and localities through which these trains operate, but that the continuance of the operation of the said trains referred to by the said company, will work a hardship on it, and upon a greater number of the people, in causing congestion of freight to occur, and consequent great hardship upon the people of Montana because of the liability and failure of the railroad to handle and deliver

freight, and further that the Northern Pacific Railway Company is now operating 8 passenger trains daily (4 westbound and 4 eastbound) over that portion of their line in Montana running via Butte, and two overland trains, and six local trains daily between Helena and points east and west of Helena; that because of the present conditions it cannot operate all these trains, and in addition thereto, maintain such freight service in Montana as will insure the reasonably prompt transportation of coal, food products, and other commodities necessary to each community, and that there is now a congestion of these commodities at division points in Montana, which the withdrawal or discontinuance temporarily, of a portion of these passenger trains, will remedy and enable the railway company to move over the Montana Division, a daily average of 3,000 gross tons more freight than it is now able to handle, and that the approaching winter season will render it still more difficult to move said freight and passenger trains; further, that said company is now engaged in construction work between Livingston and Bozeman, to enable it to improve its freight and passenger service, which work further hinders the movement of trains on its line at present, and that such work will likely be concluded within ninety days, and further, that the said railroad company is transporting upon the divisions of its line effected by the said passenger trains numbered 7 and 8 and 17 and 18, large quantities of construction material for the Chicago, Milwaukee & St. Paul Railway Company, the early completion of which railroad is of great importance to all the people of Montana.

Now the Commission being fully advised and having considered all the evidence introduced with respect to the subject matter, is of unanimous opinion that the discontinuance of said trains, while working a temporary inconvenience on a portion of the traveling public, will, however, best conserve the interests of all the people;

It is Now Therefore Hereby Ordered by this Commission that the Northern Pacific Railway Company be allowed to discontinue the operation of the following passenger trains operated in Montana, trains numbered 7 and 8 operating between Helena and Livingston, trains numbered 17 and 18 operating between Butte and Logan, and trains numbered 7 and 8 operating between Missoula and western points within this state, for a period of ninety days from and after the 9th day of November, A. D. 1907.

It is Further Ordered that during the period said trains are discontinued that the schedules of passenger trains numbered 1, 2, 3, 4, 5 and 6, be so changed as to give to each station on the route traversed by the said trains the same number of stops each twenty-four hours at said stations as have been made by all of the trains before the withdrawal of trains numbered 7 and 8, 17 and 18, and 7 and 8, being the trains referred to in this order.

It is Further Ordered that the Secretary of this Commission serve upon the proper officials and representatives of the Northern Pacific Railway Company a true and correct copy of this order.

ORDER NO. 7.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices at Helena, Montana, on the 14th day of November, 1907, the subject of Passenger Train service between Kalispell and Somers, Montana, was taken up and considered by the said Board, and the following order was duly and regularly made and entered, to-wit:

IN RE PASSENGER SERVICE FOR SOMERS BRANCH, GREAT NORTHERN RAILROAD.

SUPPLEMENTAL ORDER.

Whereas, on the 31st day of October, 1907, an order was duly and regularly made and entered requiring the Great Northern Railway Company to furnish mixed passenger train service to be run on schedule between Kalispell and Somers on what is known as the Somers Branch, giving such service daily, except Sundays; and,

Whereas, it has since been made to appear by representatives of the said railway company that such mixed train service would not be entirely satisfactory to the traveling public, and that to furnish same, would necessitate an additional train crew, and delay in the handling of freight; and

Whereas, the said company through its representatives has offered to furnish separate passenger service between Kalispell and Somers, three times each week instead of such mixed service

Now, Therefore, the Board of Railroad Commissioners of the State of Montana being fully advised respecting the subject matter, have unanimously adopted this supplemental order with respect to the passenger service for the Somers Branch, hereby revoking that portion of the original order requiring such mixed passenger service, and now hereby order and command the said Great Northern Railway Company to furnish passenger service over said Somers Branch three times each week, viz: on Mondays, Wednesdays and Saturdays, and on said days to provide a passenger train service from Kalispell to Somers, and from Somers to Kalispell, fixing the schedule of such

trains going from Kalispell to Somers and returning to Kalispell between the hours of 9:00 A. M. and 5:00 P. M. on said days.

This order to be effective from and after the 20th day of November, 1907, and the secretary is hereby directed to serve upon the proper officials of said railway company, a true and correct copy of this supplemental order.

ORDER NO. 8.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices at Helena, Montana, on the 14th day of November, 1907 the subject of a Wagon Road approach to the Great Northern Railroad track, at Columbia Falls, Montana, was taken up and considered by the said Board, and the following order was duly and regularly made and entered, to-wit:

IN RE COLUMBIA FALLS WAGON ROAD APPROACH TO THE GREAT NORTHERN RAILROAD TRACK.

Whereas, Complaint was duly and regularly made, filed and presented to the Board of Railroad Commissioners of the State of Montana, numerously signed by residents of Columbia Falls and vicinity, in Flathead County, asking that the Great Northern Railway Company be required to furnish better accommodations for the loading and unloading of freight at the depot at Columbia Falls; and,

Whereas, Thereafter the Commission collectively made personal examination and investigation into such complaint and heard evidence with respect thereto at the said City of Columbia Falls on the 26th day of September, 1907; and,

Whereas, as a result of such investigation and hearing it has been found and determined that the wagon road approach to the freight sidings at Columbia Falls is not suitable, nor in safe or proper condition for the accommodation of the public, and that the same should be changed and improved in order to facilitate the loading, unloading and handling of freight;

Now, Therefore, it is hereby ordered and directed, and said Great Northern Railway Company is hereby commanded and required to repair and improve said wagon road within thirty (30) days after the receipt of a true and correct copy of this order, as follows, to-wit:

The road must be graded to a width of not less than ten feet, and raised twelve inches in height. The wagon road heretofore referred to, is known as the house track roadway, and is not hereinabove more specifically described for the reason that there can be no mistake as to the road referred to; it being the only road used for the purpose of approaching the railroad track for the loading and unloading of freight.

The Secretary is hereby directed to serve upon the proper representatives of the Railway Company affected by this order, a full and complete attested copy of this order, under seal of the Commission.

ORDER NO. 9.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices at Helena, Montana, on the 14th day of November, 1907, the subject of a passenger depot at Columbia Falls, Montana, was taken up and considered by the said Board, and the following order was duly and regularly made and entered, to-wit:

IN RE PASSENGER DEPOT AT COLUMBIA FALLS, MONTANA.

Whereas, Complaint was duly and regularly made, filed and presented to the Board of Railroad Commissioners of the State of Montana, numerously signed by residents of the cities of Columbia Falls and Kalispell and vicinity, in Flathead County, asking that the Great Northern Railway Company be required to furnish better accommodations for passengers at the depot at Columbia Falls; and

Whereas, thereafter the Commission collectively made personal examination and investigation into such complaint and heard evidence with respect thereto at the said City of Columbia Falls on the 26th day of September, 1907; and,

Whereas, as a result of such investigation and hearing, the said Board found and determined that the present passenger station facilities are inadequate to accommodate the traveling public, and that the present depot building is too small and inadequate to give passengers proper accommodation; and it appearing that said station is at a Junction point and that numerous people are there compelled to wait for trains;

Now, Therefore, It is hereby unanimously ordered by the Board of Railroad Commissioners of the State of Montana, that the said Great Northern Railway Company shall within sixty (60) days from date of service of this order, submit to it for its approval, plans and specifications of a new passenger station for the accommodation of passengers, to be erected at said points, and thereafter, when the said Board shall have approved such plans and specifications, further order and direction will be made in the premises with respect to the construction and completion thereof.

The Secretary is hereby directed to serve upon the proper representatives of the Railroad Company affected by this order, a full and complete attested copy of this order, under seal of the Commission.

ORDER NO. 13.

On this 16th day of March, 1908, the Board duly and regularly met for the purpose of considering the complaints made by the citizens of Kalispell and Flathead County, against the Great Northern Railway Company, and to make a proper order for the disposition thereof. Hearing with respect to the subjects of complaint was duly and regularly held pursuant to notice at Kalispell, in Flathead County, State of Montana, on the 10th and 11th days of December, 1907, and since that date the Commission has had the subject under advisement, has fully considered the testimony there taken, and has made independent research with respect to the subject matter and the proper orders to be made and entered in the premises;

And now on this date, the matter being called up for final decision by this Board, it is ordered and directed that the following formal order setting forth the findings of the Commission and their conclusion with respect to the subject of such complaint be duly and regularly made and entered, to-wit:

OFFICE OF THE BOARD OF RAILROAD COMMISSIONERS OF THE STATE
OF MONTANA.

IN THE MATTER OF THE COMPLAINTS MADE BY THE CITIZENS OF
KALISPELL IN THE FLATHEAD VALLEY.

VS.

THE GREAT NORTHERN RAILWAY COMPANY.

Whereas, on the 6th day of November, 1907, many citizens of Kalispell and Flathead County, duly and regularly presented a formal complaint to this Board containing seventeen separate and distinct charges against the said Railway Company, each of which the Commission was asked to consider and remedy by appropriate order; and,

Whereas, after the filing of said complaint and consideration of the same, the Commission on the 13th day of November, 1907, duly and regu-

larly ordered a hearing at Kalispell in Flathead County, State of Montana, to be then and there had and held for the purpose of hearing testimony in support of said charges, and the explanation, if any, which the Railway Company might desire to offer to the Commission in explanation of the conditions complained of; and,

Whereas, pursuant to such notice, on the 10th day of December, 1907, the Commission duly and regularly met at the City of Kalispell, County of Flathead, State of Montana, at the District Court Room in the District Court House, and thereupon duly and regularly proceeded to the formal hearing of such complaint, witnesses having been duly and regularly sworn and testified in support of such complaint, and the Railway Company through its officers, agents and employes, having thereupon been permitted to introduce evidence either in refutation of the complaints or in explanation of existing conditions; and,

Whereas, such hearing was fully concluded on the 11th day of December, 1907; and,

Whereas, thereafter, such evidence was duly and regularly considered by the Board and independent investigation made with respect to the proper course for the Commission to take in the premises pursuant to authority of law conferred upon it; and,

Whereas, the Commission now feels fully advised with respect to the subject of the complaint, and the conditions existing, having fully considered all of the testimony offered and introduced at said hearing, and as well, made independent investigation and research;

Now, Therefore, the charges in said complaint are this day taken up, considered and disposed of in their order as follows:

1. The first charge contained in the formal complaint is that the passenger train service between Kalispell and Columbia Falls is inconvenient, insufficient and inadequate; that the cars furnished are of an inferior character and not suitable or sufficient to accommodate the travelling public; that the trains are run without regard to the convenience or comfort of the passengers and solely to suit the pleasure of the Company; that the passengers are almost daily compelled to wait at Columbia Falls for two hours, and oftentimes longer, for the train to return to Kalispell although during all the period of waiting, the train is standing at the depot, with the train crew unemployed, and that the delay at Columbia Falls is unnecessary and occasioned solely by the endeavor of the Railway Company to handle the passenger service between Kalispell and Columbia Falls by making one trip in the morning and another round trip in the evening; that further, Columbia Falls is only 15 miles from Kalispell and with a proper roadbed and equipment, the round trip could easily be made in one hour, and that it is wholly unnecessary and unjustifiable to hold and detain passengers at Columbia Falls who desire to come to Kalispell when the time of arrival at Columbia Falls of trains on the main line is more than one hour apart, and that in violation of the provisions of Section 691 of the Penal Code of the State of

Montana, the said Railway Company has been repeatedly guilty of attaching freight cars in the rear of passenger coaches on said passenger train between Kalispell and Columbia Falls, specific instance of this character being pointed out as having occurred on the 18th day of October, 1907.

It satisfactorily appearing to the Board that the Great Northern Railway Company has changed its passenger equipment and that the complainants have formally withdrawn all objection to the character of cars, furnished for passenger service, and now express satisfaction therewith, and it appearing that the delay at Columbia Falls has been of too long duration for the convenience of the travelling public, such delay being occasioned by reason of waiting for the arrival of through trains on the main line at Columbia Falls, and it appearing that such delay is unnecessary, unjustifiable and extremely inconvenient, and it further appearing that the said Company has violated Section 691 of the Penal Code with respect to the attaching of freight cars in the rear of passenger coaches;

Now, Therefore, it is hereby ordered and directed with respect to the subject of this particular complaint, that the Great Northern Railway Company, shall from and after the 15th day of April, 1908, run its passenger train between Columbia Falls and Kalispell from Columbia Falls to Kalispell within ten minutes after the arrival of main line trains at Columbia Falls, provided no other main line passenger train is reported to thereafter arrive at Columbia Falls within one hour and twenty minutes; and,

Further, that where there is delay in the arrival of such a main line passenger train at Columbia Falls for more than one hour and twenty minutes, the passenger train to Kalispell shall make the trip to Kalispell and thereafter return to Columbia Falls for the purpose of making connection with such delayed train on the main line.

Further, that hereafter, the Railway Company shall not be guilty of attaching freight cars in the rear of passenger coaches, but that when freight is to be hauled in connection with passenger coaches that such freight cars shall be placed ahead of all passenger, mail, baggage and express cars.

2. The second charge contained in the said complaint is that if the freight service between Kalispell and other points in Montana outside of the State, which is unsatisfactory and operates so as to discriminate against the business interests of Kalispell; that freight billed from and to Kalispell is unnecessarily delayed at Columbia Falls and Whitefish, and is held at the two places last named for days and in many instances for a week without any good or sufficient reason; that because of this fact, merchants located on the main line of said railroad in Flathead County, when in a hurry to receive their goods purchase them at Spokane or St. Paul, as such shipments will reach their destination in Flathead County sooner than goods shipped from Kalispell to the same point; that with proper equipment and sufficient train crews to handle the business, such delays and discriminations could be avoided and that the receipts of the Great Northern Railway from the Kalispell station are sufficient to justify that company in giving better train service.

It satisfactorily appearing to the Board that since conclusion of the formal hearing, the complainants have formally advised the Board by written communication that the freight service in and out of Kalispell has been greatly improved, and that the Railway Company has through its officers given them assurances that freight will promptly be delivered, and have agreed to in every case of delay, report the same and take the subject up with the officials of the Great Northern Railway Company, and evince a disposition not to have this Commission act further in the premises.

Now, Therefore, as to this complaint, the matter is left in statu quo, subject to further consideration at any time that conditions may seem to warrant further order or direction.

3. The third grievance contained in said formal complaint is to the effect that the station facilities and conditions at Columbia Falls are wholly insufficient to properly accommodate the several hundreds of people who are weekly passengers to and from Kalispell and that the station, waiting room, and accommodations for the travelling public are entirely inadequate and not suited for the accommodation of passengers.

It satisfactorily appearing to the Board from the evidence submitted and from conferences had with officials of the Railway Company, and depot plans having been submitted to the Board in compliance with an order issued by the Commission under date of the 14th of November, 1907, as a result of a public hearing held on this subject upon complaint of citizens of Columbia Falls and vicinity, such plans having been approved by the Board and the complainants.

Now, Therefore, it is hereby ordered and directed that the construction and completion of the depot building and other improvements shall be made in accordance with the plans and specifications submitted and approved, and that such depot shall be completed and ready for use at a date not later than the 1st day of June, 1908.

The fourth charge contained in the formal complaint is to the effect that the same privileges are not extended to all the merchants of Kalispell in the matter of unloading freight. In other words, a discrimination is made by the Railway Company between shippers.

It satisfactorily appearing to the Board from the evidence taken at the hearing that the only reason for apparent discrimination was occasioned by virtue of a rule or regulation of the Company requiring the consignee to make payment of the freight charges in advance of the delivery of the goods, or to furnish an appropriate bond guaranteeing payment of the same, and it appearing that such rule or regulation is entirely reasonable, and the complainants having in writing formally admitted to this Board the reasonableness of such a rule or regulation, on the part of the Company.

Now, Therefore, the subject of this complaint is hereby ordered dismissed.

5. The fifth ground of complaint is to the effect that the agents and employees of the Great Northern Railway Company at Kalispell have been

in the habit of breaking open boxes and packages consigned to Kalispell merchants under the claim of authority or right so to do to ascertain the contents of said packages or boxes.

It satisfactorily appearing from the evidence that this complaint is not well founded and further, that the complainants have formally in writing withdrawn the same, it is hereby ordered dismissed.

6. The sixth charge is to the effect that the train connections provided by the Railway Company between Kalispell and Helena are inadequate and inconvenient.

As to this charge the Board is of belief that the train service between Kalispell and Helena is inadequate and inconvenient to persons residing both at Kalispell and vicinity and at Helena and vicinity, and should be improved so far as existing conditions will permit, and to that end we have this day directed a conference between this Board and the officials of the Great Northern Railway passenger department for the purpose of endeavoring to arrange amicably, some remedy by change of schedule or otherwise, or if found necessary, to order such change as will insure better service between said points. Accordingly it is now ordered and directed that this subject shall be held for future consideration and disposition hereafter by such special order as the Board shall determine best suited to remedy such condition.

7. The seventh ground of complaint is that the Great Northern Railway Company owns, controls and operates a line of railway from Kalispell to Sommers in Flathead County, a distance of ten miles. That there are over one thousand people living at said town of Somers, and one thousand or more persons living in the vicinity thereof, and that in said town there are two or more stores, a livery barn, bakery, meat market, one bank, a postoffice, a drug store, and other places of business. That there is a large farming and fruit growing country tributary to said town, and that said town is the natural shipping point for the farmers and fruit growers living in the vicinity thereof, and in the lower Flathead Valley, and on the west shore of the Flathead Lake.

A daily combination freight and passenger service is demanded of the Railway Company between Kalispell and Somers to meet the needs and demands of the people, and in this connection it is also demanded that the Railway Company shall be required to provide a suitable depot for the accommodation of passengers and the reception of freight, express matter and baggage for shipment from Somers, to Kalispell at the town of Somers.

Further, it is demanded that a dock shall be built by the Railway Company, and that the Railway Company be required to establish a freight and ticket office and place an agent in charge.

In a supplementary complaint filed after the hearing, it is also demanded that the Railway Company be required to extend its line from its present terminus at the town of Somers to the dock to be erected on the borders of the Flathead Lake.

The Board having fully and carefully considered the evidence submitted with respect to this charge, and having made full and personal investigation with respect to the merits thereof is convinced of the meritorious character of same and is of unanimous opinion that something should be done to remedy the conditions complained of.

The Board entertains the view that under the conditions it does not have the power or authority to compel the Railway Company to erect or maintain a dock on the borders of the Flathead Lake, or to extend its line to said dock; however, as to the maintenance of its line of road and train service for the carriage of freight and passengers between Somers and Kalispell the Board is of the opinion that this subject is clearly within its power and authority, and that complainants are entitled to a remedial order from this Board, effective within a reasonable time.

The Board having fully considered the subject and being advised respecting same, now hereby orders and directs that on or before the 15th day of May, 1908, the said Great Northern Railway Company shall erect or secure a suitable building at some central and convenient point in the town of Somers to be used as a freight and passenger depot for the accommodation of freight and passengers, and that said Company shall place in charge thereof some suitable person to act as agent in the sale of tickets and acceptance and delivery of freight, baggage and express, and that from and after the 15th day of May, 1908, the said Railway Company shall daily operate, run and conduct, at least two mixed passenger trains each way, Sundays excepted, between Kalispell and Somers, on such schedule as will enable passengers to make morning and evening connection at Kalispell for main line trains at Columbia Falls.

Respecting the connection of the line of said road from its present terminus at Somers to a dock on the borders of the Flathead Lake, the Commission will hereafter take this subject up with representatives of the Railway Company and use its good offices in an endeavor to have the line so extended and in event of the inability of the Board to amicably secure such concession from the Railway Company, consideration will then be given by the Board as to its power and authority in the premises.

8. The eighth grievance contained in said complaint is to the effect that the Railway Company should be required to build, establish and maintain a siding about one-half way between Kalispell and Somers.

From the evidence submitted and investigation made it does not appear that such siding is a pressing necessity, and further, the complainants having formally abandoned said complaint by written statement filed with the Board, the same is hereby ordered dismissed.

9. The ninth charge contained in said formal complaint is with respect to a line of railroad owned by the company, from Kalispell to Marion, and the service and railroad facilities for the transportation of freight and passengers on this line.

No evidence having been submitted with respect to this charge, and the complainants being apparently desirous only of compelling the Railway Company to run its passenger trains through to the Coast, via Kalispell, the Board is of opinion that if it is within its province to make order in the premises, that the subject has not been placed before it so as to enable intelligent action, and therefore this complaint is ordered dismissed.

10. The tenth complaint relates to freight rates on coal consigned to Kalispell, and also charges discrimination against Kalispell and other points in Flathead County, in the present tariff on cord wood.

The matter of rates on coal from mining points on the Great Northern Railway having been the subject of comparatively recent investigation, and the Commission having put in effect a new tariff much lower than the one previously in effect, in which new tariff the rates from Chinook, Armington, Belt and other mines to Kalispell are the same as from Havre, the nearest mining point, thus giving to citizens of Flathead County competitive purchasing points, and also a lower rate than formerly in effect, the Commission therefore cannot disturb the tariff without affecting the mine operator, the retailer, and the consumer at all points on the Great Northern Railway.

The Commission recognizes the right of the complainants to petition for change of tariff on coal and wood, but it is of the opinion that any change would involve the interests of so many other communities that it should be considered at another hearing, in which the people at other points on the Great Northern Railway should be heard.

This tenth complaint is, therefore, dismissed, subject to a further hearing should the complainants desire it.

11. The eleventh charge contained in said formal complaint relates to the train service between Libby and Kalispell.

This subject has been by the Commission carefully investigated and after consultation with residents living in the vicinity of Libby, and with officials of the road, it is now believed that the train service offered by the Railway Company between Libby and Kalispell is much improved if not entirely satisfactory, and therefore the matter will be held in statu quo subject to the further order or direction of the Board in event it is deemed necessary or desirable.

12 and 13. The 12th and 13th grievance set up in said formal complaint relate to the number of stations at which stops are made in Flathead County by passenger trains, and also to the number of accidents which have resulted in injury or death to many persons. Both of these charges having been formally withdrawn by the complainants by statement in writing, are therefore hereby ordered dismissed from further consideration.

14. The 14th ground of complaint relates to the rule or regulation of the Railway Company requiring a shipper who presents a claim for damages, to deliver to the company all papers which constitute evidence of his claim. The Board is of opinion that this rule or regulation is reasonable on the part of the Railway Company and that it is a regulation adopted and enforced

by nearly all railway companies operating in the United States. If the consignee or consignor be desirous of keeping certified copies of his papers or securing duplicates thereof, it is hereby ordered that agents of the company shall furnish such copies on request.

15. The 15th ground of complaint alleges that there should be established and maintained at Belton, a suitable freight and passenger depot together with sufficient and competent help to transact the business, and provide for the comfort and convenience of the passengers.

The Board having given this matter special attention and having received assurances from the general officers of the Great Northern Railway Company that it is their intention in the very near future to place a substantial and commodious depot at this point, that matter being undertaken, however, on account of the contemplated parking of a portion of the country adjacent to Belton, thereby making it a prominent stopping point for tourists, rather than because of the present business at that place, and there being no evidence in the record showing that the present accommodations at Belton are inadequate, final action by the Board on this complaint is deferred. However, should the proposed new structure be unreasonably delayed, and it is brought to the attention of the Board that the facilities now provided are inadequate, to accommodate the present business, a special order covering that matter will be made by the Board.

Therefore, this subject is hereby ordered to be held in abeyance awaiting further action by the Railroad Company, the complainants or others.

16. The 16th ground of complaint relates to the failure of the Great Northern Railway Company to furnish to shippers in Kalispell in sufficient quantity at the proper times refrigerator cars for the transportation of perishable merchandise. By a subsequent written communication addressed to this Board, this ground of complaint has been formally withdrawn, but in lieu thereof a request was made that this Board take up the matter of freight rates promulgated by the Railway Company with respect to the carriage of wheat and oats from Kalispell to points beyond the State of Montana. This is a subject over which the Commission has no jurisdiction or control. However, the Commission has taken the subject up with the representatives of the Railway Company with the result that such rate was reduced 5c cwt. on oats and therefore, this subject is now ordered dismissed.

17. The 17th ground of complaint has reference to the opening of Main street across and over the right of way and tracks of the Great Northern Railway Company at the City of Kalispell. It having been determined by this Commission and by written acknowledgment conceded by complainants that this matter is one not properly addressed to this Board, it is hereby ordered that this ground of complaint be dismissed.

It is further hereby ordered that the Secretary of this Commission shall immediately serve upon the complainants or their authorized representative, and upon the Great Northern Railway Company or its appropriate representative,

a true and correct attested copy of this order, said service being made either personally or by registered mail.

OF MONTANA.

ORDER NO. 14.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices in the Capitol Building, City of Helena, State of Montana, this 2nd day of April, 1908, the following order was duly and regularly made, to-wit:

IN THE MATTER OF THE APPOINTMENT OF A STATION AGENT AT
DODSON.

Whereas, complaint has been made to the Board of Railroad Commissioners of the State of Montana by numerous residents of the Little Rockies, mining, farming and stock growing district in Chouteau County, Montana, setting forth the inadequacy of the facilities provided for the transportation of passengers, freight and express to and from that district, and alleging that the placing of a station agent at the station of Dodson would greatly facilitate the handling of this business, and the Board heretofore having investigated the subject of said complaint and having conferred with the officials of the Great Northern Railway Company at an informal hearing held February 19, 1908, at the offices of the Commission and having had access to and considered the reports of the Great Northern Railway Company showing shipments into and out of the station of Dodson, and it appearing that a large amount of business now handled at Malta and other points should properly go to Dodson and would go there, if proper facilities for handling the same should be provided, and being otherwise fully advised in the premises, and being of the opinion that a station agent at said station of Dodson would be of great convenience to the numerous residents of the district above referred to, and believing that the amount of business to be handled at that point now makes it necessary to place there an agent for the transaction of the business of the community;

It is Now Hereby Ordered that the Great Northern Railway Company do, on or before the first day of May, 1908, place some suitable person in charge of the station at Dodson for the purpose of handling the passenger, freight, express and telegraph business of that station.

The Secretary is hereby directed to serve a copy of this order either personally or by registered mail upon the proper officials of the Great Northern Railway Company.

OF MONTANA.

IN THE MATTER OF THE RUNNING OF ENGINES FROM BLOSSBURG
TO HELENA.

Whereas, it has been made to appear to the Board of Railroad Commissioners of the State of Montana that the stoppage at Silver Bow Junction, of train No. 5, being a train of the Chicago, Burlington & Quincy Railroad Company operated by and over the lines of the Northern Pacific Railway Company in Montana, would be a matter of convenience and accommodation to the traveling public generally, and especially such stoppage would enable passengers traveling into the City of Butte on the Oregon Short Line route to frequently make connections with said train No. 5 at Silver Bow Junction when bound for points west of Butte;

It is Now Hereby Ordered that the Northern Pacific Railway Company do on or before the 1st day of May, 1908, issue an order requiring the stoppage of said train No. 5 at Silver Bow Junction, Silver Bow County, Montana, and from and after said last above named date, said order will be effective.

IN THE MATTER OF THE DISCONTINUANCE OF STATION AGENTS, STATIONS, AND SIDE-TRACKS.

Whereas, it has come to the notice of the Board of Railroad Commissioners of the State of Montana, that heretofore it has been the custom of railway companies operating within the State of Montana, to discontinue station agents at certain stations, to abandon certain stations entirely, and to abandon and remove side tracks and spur tracks without notice to the Board or to the public; and it being made to appear to the Commission that each of said practices results in annoyance and inconvenience to the traveling public as well as to shippers;

It is Now Hereby Ordered that no railway company now or hereafter operating within the State of Montana shall discontinue a station agent at any station where a station agent now is or may hereafter be installed, without first giving notice thereof to and receiving permission from the Board of Railroad Commissioners of the State of Montana to make such change.

ORDER NO. 18.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices in the Capitol Building, City of Helena, State of Montana, this 4th day of June, 1908, the following order was duly and regularly made, to-wit:

IN THE MATTER OF THE REMOVAL OF A PASSING TRACK AT THE
STATION OF ASHFIELD.

Whereas, it has been called to the attention of the Board of Railroad Commissioners of the State of Montana that the Great Northern Railway Company desires and is about to remove a certain passing track now laid at or near its station of Ashfield; and,

Whereas, certain residents of the vicinity of Ashfield have complained that if the passing track is entirely removed their facilities for loading and unloading cars will be destroyed; and,

Whereas, the Board of Railroad Commissioners of the State of Montana heretofore on the 12th day of May, 1908, held at its offices in the Capitol Building, City of Helena, State of Montana, a hearing wherein the said Great Northern Railway Company was represented by its duly authorized agents and the shippers of the vicinity of Ashfield being also represented, and the said Board having under consideration the testimony submitted at said hearing, and having investigated the matter thoroughly and being fully advised in the premises;

It is Now Hereby Ordered that the Great Northern Railway Company may remove so much of said passing track as will leave a spur capable of holding ten cars, and that said spur will be left at the end of the passing track nearest to the public road crossing the tracks of the said Great Northern Railway Company; and,

ORDER NO. 19.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices in the Capitol Building, City of Helena, State of Montana, this 16th day of June, 1908, the following order was duly and regularly made, to-wit:

IN THE MATTER OF A THREE CENT PER MILE PASSENGER TARIFF
ON THE MONTANA RAILROAD.

Whereas, there is now and for a long time past has been in effect a passenger tariff of five cents per mile on the Montana Railroad operating between Lombard, Montana, and Lewistown, Montana; and,

Whereas, the Railroad Commission of Montana, on the 11th day of February, 1908, held a hearing in the City of Lewistown, wherein the public having occasion to use said railroad, and the railroad company were both represented by agents and attorneys; and,

Whereas, it was determined by the Board of Railroad Commissioners of the State of Montana, that under all the existing circumstances, the then established passenger tariff of five cents per mile was, at that time, fair, just and equitable and the traveling public, by their duly authorized agents, agreeing and coinciding therein, said passenger tariff of five cents per mile was by this Board authorized and allowed until such time as the Chicago, Milwaukee & St. Paul Railway Company should begin the operation of passenger trains over its line as far west as Lombard, Montana; and,

Whereas, it appears to the Board of Railroad Commissioners of the State of Montana, in the light of the testimony submitted at said hearing and of further independent investigation by said Commission, that a three cent passenger tariff should now be established by said Montana Railroad Company;

It is Now Hereby Ordered, that the Montana Railroad Company do, on or before the 1st day of August, 1908, establish and promulgate a passenger tariff between points on said railroad line, based upon a tariff of three cents per mile.

The Secretary is hereby directed to serve a copy of this order either in person or by registered mail upon the proper officers of the Montana Railroad Company.

ORDER NO. 20.

At a meeting of the Board of Railroad Commissioners of the State of Montana, duly and regularly held at its offices in the Capitol Building, City of Helena, State of Montana, this 17th day of June, 1908, the following order was duly and regularly made, to-wit:

IN THE MATTER OF THE OPENING OF A STATION AT CORBIN.

Whereas, it has been made to appear to the Board of Railroad Commissioners of the State of Montana, that the people residing at and in the vicinity at Corbin, heretofore a station on the line of the Great Northern Railway, are without proper and adequate station conditions at said point: and,

Whereas, the Board of Railroad Commissioners of the State of Montana, held a public hearing, the 18th day of April, 1908, wherein the shippers and traveling public of Corbin and vicinity were represented, and the Great Northern Railway Company was present by its proper agents and officers; and,

Whereas, the said Board of Railroad Commissioners has since made personal investigation of the conditions at said station of Corbin, and it appearing to said Commission that the volume of business transacted at said station, and the number of people to be accommodated, thereby makes the establishment of a station and station agent at said point, reasonable and desirable.

It is Now Hereby Ordered, that the Great Northern Railway Company, do on or before the 15th day of July, 1908, open a station at Corbin and install there an agent, and that this order shall be effective from and after the last above mentioned date.

REGULATIONS.

The following regulations have been issued by the Commission:

REGULATION NO. 1.

No railroad company operating within the State of Montana, after the adoption by the Commission of such Company's freight, passenger, express and other tariffs, and the rules and regulations with respect thereto, applying locally in this state, shall advance, reduce, change or modify the same or issue new tariffs, locally in Montana, without first obtaining the Commission's consent and authorization therefor.

REGULATION NO. 2.

From and after the 1st day of April, 1908, any person, persons, corporation or association, owning, leasing or operating any railroad within the State of Montana, shall so make up their trains, where mixed trains are run, that the mail, express and baggage car or cars on such trains shall be placed behind all freight cars in said train whether said cars are loaded with express, live stock or freight.

REGULATION NO. 3.

All railroads or railroad corporations operating within the boundaries of the State of Montana, are hereby required upon the arrival of any delayed passenger train at the first division terminal, within the confines of this state, to notify by telegraph, every station on the line of the railroad within the state, the amount of time such passenger train is delayed, and upon the arrival of any such delayed passenger train at each succeeding division terminal, it is likewise made the duty of such company through its servants, agents and employes, to notify by telegraph every station on the line of such road within the state, which has not yet been reached by said train in its course, the amount of time the train will be delayed beyond the schedule time for arrival at such stations; and every such railroad or railroad corporation is hereby required, and it is made its duty through its servants, agents or employes within 15 minutes after receipt of telegraphic notification announcing the time such train is delayed beyond schedule, to post a notice of the same conspicuously in every depot, station or waiting room not yet reached by any such train advising the public of the time such train is delayed, and the time that it will likely arrive at such station. And it is likewise made the duty of every such railroad or railroad corporation, through its servants, agents or employes, within 15 minutes after receipt of telegraphic notification that any such train is further delayed, to again post notice of such delay in every depot, station or waiting room, as heretofore directed, for the information, benefit, advantage and convenience of the traveling public.

RATE WORK OF THE COMMISSION.

After careful investigation into the methods and organization of older and well established Railroad Commissions, the Board concluded that it would be necessary to employ a rate-clerk. Commissioner Godfrey was accordingly delegated to go east and select a competent man. This resulted in the engagement of Oliver W. Tong, as Rate Clerk to the Commission, at a salary of \$2,000.00 per annum.

ADOPTION OF TARIFFS.

Within a short time after the organization of the Commission, the work of securing copies of existing freight and passenger tariffs was completed, and the Board was then placed in a position to comply with Section 13, of the Railroad Commission Law, which provides, "the power and authority is hereby vested in the said Board, and it is hereby made its duty to adopt as soon as practicable after the organization of the Board all necessary rates, charges and regulations to govern and regulate freight and passenger tariffs * * * * on the different railroads in this State, and to make the same effective by enforcing the penalties prescribed in this Act."

Under the Law, it was not imperative that the Commission adopt new rates, but in order to prevent the Railroad Companies advancing rates, it was concluded that the best interests of the State would be served by adopting, with two exceptions, all the tariffs, rules and regulations which were in existence on the various lines operating within Montana.

Accordingly, July 10th, 1908, was set and legally advertised as the date upon which the Board would hold a public hearing and proceed to fix and adopt maximum rates, rules and regulations applicable on intrastate traffic.

The hearing was well attended. The Commission announced that it would be to the best interests of all concerned to adopt all the existing tariffs filed with the Commission, except express tariffs, with the exception of a tariff applicable on coal from producing stations on the Great Northern Railway, and a tariff of the Northern Pacific Railway applying on lumber between points within the State. Vigorous objections were made by representatives of the railroads against the exclusion of these tariffs, with the result that it was finally decided to hold hearings on the two subjects, at which all parties interested could be given an opportunity to come before the Commission.

At later dates, orders were duly and regularly made and directed to each railroad in the State, declaring as a maximum, the existing freight and

passenger rates, rules and regulations, and on and after the date of effectiveness of same, the railroads were ordered to make no changes in rates without authorization of the Commission.

INTERCHANGEABLE MILEAGE BOOKS.

The Commission early took under consideration the question of a reduction in the passenger fare between all Stations within the State and after careful investigation it was convinced of the impossibility of securing for some time to come, a reduction in the present rate of three cents per mile. However, a conference was arranged with the railroads to discuss the subject and an agreement reached whereby, in view of the three cent passenger fare between local stations within the State, the Great Northern, the Northern Pacific, and the Chicago, Burlington & Quincy Railway Companies would issue 3,000 Mile Interchangeable Mileage Tickets at a rate of 2 1-2 cents per mile, the same to be honored for passage in the following described territory:

Northern Pacific Railway. Between all stations, North Dakota and west to the coast.

Astoria & Columbia River Ry. Between all stations.

Butte, Anaconda & Pacific Ry. Between all stations.

Chicago, Burlington & Quincy Ry. Between all stations on their lines in Montana, Wyoming and Colorado, and for through business on that portion of their lines in South Dakota and Nebraska over which it is necessary to travel in order to reach Colorado.

Farmers' Grain & Shipping Co.'s R. R. Between all stations.

Great Northern Ry. Between all stations on their lines in Manitoba, North Dakota and west, and between stations locally in South Dakota, Albee to Huron, also between Fairmont, N. D. and Aberdeen, S. D.

Montana Railroad Co. Between all stations.

Port Townsend Southern R. R. Between all stations.

Spokane Falls & Northern Ry. Between all stations.

Vancouver, Westminster & Yukon Ry. Between all stations.

Washington & Columbia River Ry. Between all stations.

Willmar & Sioux Falls Ry. Between all stations locally in South Dakota, Sherman to Booge and Yankton.

In making mileage detachments, conductors to detach two coupons for each mile traveled on these lines.

Accordingly these interchangeable mileage tickets were placed on sale at stations in the State of Montana, and in the other territory mentioned, effective July 10th, 1907.

At this meeting it was also arranged to have the railroad companies continue to grant, on all special occasions, the usual excursion rate of a fare and one-third for the round trip.

COAL RATES ON GREAT NORTHERN RAILWAY.

Immediately after the organization of the Commission, numerous complaints were received relative to the existing coal rates on the line of the Great Northern Railway. Conferences were held with all interested parties with a view to arriving at some fair adjustment, and as a result, the Commission finally fixed and established rates from each producing point on the Great Northern Railway to all consuming points thereon. The inauguration of these rates permitted the opening of new coal mines and the shipping of the fuel to the largest consuming centers in the State.

The approximate reduction in the coal rates in this instance amounted to not less than forty per cent and the reduced rates became effective August 15th, 1907, which enabled the operators to compete for the coal business of the ensuing winter season.

LUMBER RATES OF THE NORTHERN PACIFIC RY.

Prior to the establishment of the Commission, the Northern Pacific Railway had in use, a distance tariff between all stations within the State applicable on lumber and forest products. In addition to the distance tariff rates provided therein, some specific rates were named to the principal consuming points. Effective June 30th, 1907, the Northern Pacific Railway Company filed with the Commission a new tariff, which, in effect, meant an advance of forty per cent in the rates that previously prevailed. This was one of the tariffs in controversy at the hearing held on July 10th, 1907, at which time the Commission refused to adopt the new rates, but decided to give the Railway Company an opportunity to be heard on the subject. A hearing, therefore, was duly and regularly advertised to be held on July 24th, 1907, at which time all interested parties would be given an opportunity to present evidence on the question of the proposed advances in lumber rates. This hearing resulted in the cancellation of the entire distance tariff, in lieu of which specific rates were established from every producing point to every consuming point on the Northern Pacific Railway and the Butte, Anaconda & Pacific Railway, in the state.

In addition to the changes in rates, arrangements were made with all parties interested for the inclusion of every article of forest product at either the lumber rates, or an arbitrary of one cent per cwt. over. The minimum weights were also changed to the cubical capacity basis, thereby insuring full loading of cars. The effect of this adjustment was a reduction of practically thirty per cent from the rates named in tariff rejected by the Commission.

DEMURRAGE.

The Commission found demurrage rules in rather a chaotic condition, each railroad in the State operating under from one to three sets of rules, with no uniformity. In fact, some sections were favored over others. This condition coming to the attention of the Commission, the matter was consid-

ered at several formal and informal hearings in Helena and Butte and resulted in uniform rules, both on State and interstate business, more favorable to the shipper than those of any other state in the Union.

Previously, each railroad had appointed one of its officials to look after demurrage claims and matters in general and in many instances this proved unsatisfactory to shippers on account of delay in adjustment of claims. This has been changed to a much more satisfactory basis, by the forming of a State Association, with jurisdiction over all demurrage matters on all lines in the State, with headquarters at Butte. Mr. J. D. Mendenhall, Commissioner.

DISTRIBUTING RATES FROM BILLINGS AND FORSYTH.

While the question of distributing rates from the jobbing centers was not to be a matter of discussion at the hearing to consider general distance tariff rates, representatives from the cities of Billings and Forsyth appeared at this hearing and expressed their views with reference to the adjustment of rates from these stations. So far as the Forsyth rates were concerned, the question had been previously taken up by the Commission and an adjustment had been reached. Distributing rates were established from that station to all points within a certain radius on the Northern Pacific Railway. After this disposition by the Commission, the matter was also taken up with the Chicago, Milwaukee & St. Paul Railway, and arrangements made for the establishment of similar rates to points on that line. Distributing rates are, therefore, now in effect from Forsyth, enabling the jobbers at that point to reach all the nearby towns at reasonable rates.

Conferences were had with the railroad officials and the Billings Commercial representatives regarding the jobbing rates from that district. The matter has been disposed of to the satisfaction of the Billings shippers, at least for the time being, as reductions have been made in merchandise rates from that station to points on the Burlington line, and an agreement reached whereby, in the near future, reductions will be made in the rates to stations on the Northern Pacific and the Great Northern Railways, where today the Billings jobbers are not able to compete.

COAL RATES FROM CHINOOK.

Complaint having been received from the Ruhe-Lange Coal Company, coal mine operators at Chinook, Montana, with reference to freight rates on coal from that station to points on the line of the Great Northern Railway, an informal conference was arranged between the officials of the Great Northern line and the shippers, February 4, 1908, and the subject of rates from Chinook, as compared with the rates from other coal producing

points, was gone into thoroughly. A satisfactory adjustment of the question was arrived at, and rates established to all stations on the Great Northern and Butte, Anaconda & Pacific Railway.

FRUIT AND VEGETABLE RATES.

At informal conferences, arrangement was made with the Northern Pacific Railway for the establishment of distance tariff on fruit and vegetables, in less than carload lots. There was not in effect a reasonable distance tariff on this traffic, although it appeared to the Board that there was a possibility of a future heavy movement of the business particularly from the Bitter Root district.

On August 10th, 1907, tariff became effective, making a reduction of 23 per cent in such rates.

INSTANCES WHERE RATES, ETC. HAVE BEEN CHANGED ON LESS THAN STATUTORY NOTICE AND WITHOUT PUBLIC HEARING.

May 22, 1908: Authority granted for republication of joint rates with Great Northern and Northern Pacific Railways, in Montana.

EXPRESS.

Hearing for establishment of maxima rates, rules and regulations, for express companies, operating within the State, was duly and regularly advertised to be held on January 4, 1908. As in the case of freight and passenger tariffs of the railroads, the Board deemed it advisable to accept, without change, the existing tariffs of the Adams Express Company, the Great Northern Express Company, the Northern Express Company, and the Pacific Express Company, these being the only companies operating within the State on that date.

FRUIT AND VEGETABLE RATES OF NORTHERN EXPRESS CO.

Prior to hearing, for adoption of the express companies' tariffs, a check had been made of the special commodity rates in existence and it was found that the fruit and vegetable rates of the Northern Express Company were in an unsatisfactory condition. The attention of the express company was called to this, at the hearing on January 4, 1908, and agreement was reached at that time whereby the company would publish a new tariff containing all the fruit and vegetable rates in the State, and at the same time make material reductions in such rates.

The only rate on fruit and vegetables in existence prior to April 15, 1908, date on which the new tariff became effective, from the Bitter Root district to Helena, Butte and Anaconda, of \$1.00 per 100 pounds. This rate was lower, in proportion, than the new rates established, and for this reason the Northern Express Company desired to have that rate advanced. Feeling that a change of this character would work a great hardship on the shippers in the Bitter Root district, the Board notified the express company that the desired authority could not be extended.

Below will be found a complete list of all the special commodity rates in existence prior to April 15, on fruit and vegetables, via the Northern Express Company, the old and new rates being shown, together with the reductions made by publication of the new tariff.

CHECKING OF TARIFFS: CHANGES IN RATES.

The same rule has been adopted by the Board with reference to changes in express rates, rules and regulations as exists for changes in tariffs of the railroad companies, i. e., they cannot be made without first receiving the authorization of the Commission. Before making changes of any character in the existing tariffs, therefore, the express companies submit to the Board the proposed changes. These are carefully gone over by the Commission, in each case, and through this method of handling many discrepancies have been found in the existing rates. In these instances, the express companies, have, without exception, complied with the views of the Board as to the proper rates to govern, and many reductions in the rates have resulted.

ORGANIZATION OF CONTINENTAL EXPRESS CO.

Effective June 1, 1908, agreement was consummated between the Chicago, Milwaukee & St. Paul Railway Company, and the Continental

Express Company, under the terms of which the latter company is organized to handle express traffic on the new lines of the Chicago, Milwaukee & St. Paul Railway Company.

This new express company has filed with the Board many of its tariffs covering rates, rules and regulations, each of which has been carefully checked by the Commission with a view to having the rates no higher than the existing rates of other express companies in the State.

CONTEMPLATED REDUCTION IN EXPRESS RATES.

The Board has had under consideration for some time the question of the reasonableness of existing rates of the express companies, with a view to making reductions in the same. It is proposed to hold a hearing on the subject in the near future, at which time the matter will be gone into thoroughly.

MONTHLY BULLETINS.

MILEAGE DISTANCE TARIFF.

It appearing to the Commission from investigation and comparison that mileage distance tariffs in use in the State, were too high, hearings were held on March 18th and May 5th, 1908, and the subject thoroughly gone into. The testimony offered showed that only about 8 per cent of the freight carried in the State was moved under these tariffs and as the Commission was desirous of taking such action as would be the most beneficial to the shippers of the State, it was agreed with the railroads interested to, so far as possible, eliminate the mileage distance tariffs, by replacing them with commodity tariffs covering the movement of the principal commodities in the State. The first result of this agreement is the establishment of a commodity distance tariff on wheat, corn, rye, oats, barley, corn meal, rolled oats, flour, feed, millstuffs, and potatoes, straight or mixed carloads, which will become effective about September 15th, 1908, and cause a reduction of 10 per cent for distances 5 to 100 miles; $23\frac{1}{2}$ per cent 100 to 200 miles; 29 per cent 200 to 300 miles, and 35 per cent 300 to 600 miles. This will occasion a considerable saving for the shorter distances and a very material saving for the longer distances.

Below is shown a comparison of the old and new rates:

ORE RATE HEARING, PENDING.

In the ore rate matter, the Commission has not, as yet, arrived at a full conclusion, although a tariff agreeable to the shippers and fair to the railroads is under consideration. This tariff is made to cover any unusual conditions and to equalize the smelting points, putting Butte and East Helena on practically the same basis. As the matter of smelter rates is of far more importance than freight rates in the production of minerals, the competitive feature thus brought forth should prove of much value to the ore producers of the State. In addition to this there will be a very material lowering of the freight rates on ore.

LEGISLATION.

The Commission recommends the passage of suitable legislation to prohibit Railroad companies, or companies owned and controlled by, or in which Railroad companies are interested, from engaging in the wholesale or retail coal business within the State of Montana.

The railroad commission law should be so amended as to give the Commission greater power and authority in the matter of adopting and enforcing regulations respecting the carriage of freight and passengers, and matters pertaining thereto, in the conduct of the business and affairs of railroad corporations. The Commission should have full authority to make inspection of safety appliances, and to make and enforce regulations with respect thereto, to compel reports respecting the examination of the condition of boilers in use, and to make inspection thereof when deemed necessary or desirable, and to prescribe and enforce regulations with respect thereto; and also to make and enforce regulations concerning the running of trains, cars or engines for the safety of employees and the traveling public.

TRACK AND SAFETY APPLIANCE INSPECTOR.

On October 1st, 1907, the Commission created the position of Track and Safety Appliance Inspector to the department and appointed S. M. Ross, an experienced railroad man, as Inspector, at an annual salary of \$1,500.00.

The lines of all railroads operating in the state have been carefully inspected and their condition just previous to the spring floods of this year, was very satisfactory. Much work on road beds was done during 1907, and the first five months of the present year.

On report of the Inspector, the Commission has in many instances made request to the different railroad companies for the correction of improper conditions on locomotives, cars, tracks, trestles, crossings, etc., all of which requests have been promptly complied with by the railroad companies.

It is the duty of the Track and Safety Appliance Inspector to report to the Commission the violation of any state or federal law pertaining to railroads, by any common carrier operating in Montana.

The Inspector makes investigation into all wrecks and serious accidents and files a report in connection with the same with the Commission.

ACCIDENTS.

The Montana Railroad Commission Law makes certain requirements with reference to the reporting and investigation of accidents occurring in the operation of railroads within the state.

Under regulation of the Commission, Railway Companies are required to give telegraphic notification of all accidents covered by the law, within one hour after the occurrence of same, if possible.

The telegraphic notification of an accident is followed by a detailed daily report made out upon a form furnished by the Commission; at the end of each month all Railway Companies in Montana file a monthly or recapitulatory report, also upon this Department's form, showing the accidents occurring during the month.

The telegraphic notifications and daily reports of accidents are copied into books provided for the purpose making a complete, permanent history of every accident.

A card index shows at a glance the name of every person injured, upon what road and other details.

The following recapitulation of accidents covers the period between March, 1907 and July 1st, 1908:

Name of Railroad	Empl's killed	Empl's injured	Pasgrs killed	Pasgrs injured	Others killed	Others injured
Northern Pacific Ry.	35	202	1	88	45	55
Great Northern Ry.	16	549	1	66	16	13
Montana Railroad	1	9	0	0	2	0
Chicago, Burl. & Quincy Ry. ...	1	2	0	0	1	0
Chicago, Mil. & St. Paul Ry. ...	2	4	0	0	0	0
Oregon Short Line R. R.	0	1	0	0	2	1
Butte, Anaconda & Pacific Ry...	1	16	0	0	5	2
Yellowstone Park R. R.	1	1	0	0	0	1
Grand Totals	57	784	2	154	71	72

Total killed on all Railroads in Montana..... 130
Total injured on all Railroads in Montana 1,010

Of those listed as injured, it is safe to say that fully fifty per cent. are accidents of a very slight nature, "cinder in eye," "sprains," "abrasions," etc.

It will be noted that for the entire period of sixteen months covered by the above figures, but two passengers were killed by the railroads in Montana; certainly a wonderful record.

Under the heading of "others killed" and "others injured" the greater number so listed were trespassers upon right of way and trains.

The Commission has investigated a number of wrecks, personally but owing to the great distances across our state it is often impossible to reach the scene of a wreck until after all evidence in connection with the same has been cleared away.

FINANCIAL ACCOUNT

The Montana Railroad Commission law carried with it an appropriation of \$50,000.00 for the years 1907 and 1908. Below will be found a statement, segregated into certain divisions, showing total amount expended to July 31st, 1908, together with balance of appropriation unexpended.

From the appropriation there have been paid all expenses of the Commission, including office equipment purchased, printing, supplies, travelling expense, postage, express and telegraph charges.

OPINIONS BY THE ATTORNEY GENERAL

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, April 6, 1907.

To the Board of Railroad Commissioners, Helena, Montana:

Gentlemen:—I am in receipt of your favor of the 4th inst., presenting for decision by this office the following question, to-wit:

“Is the item of \$1,000.00 mentioned in Section 8, an item chargeable out of the sum appropriated in Section 36, or is it an extra item allowed the Board in addition to the State appropriation mentioned in Section 36?”

In answer to this question you are advised that the \$1,000.00 mentioned in Section 8 of the law does not constitute an appropriation of State Funds for the purpose therein mentioned in addition to the \$50,000.00 which is appropriated by Section 36. It is rather a limitation of the amount which you are permitted to use for the purposes specified in Section 8, but when such items are allowed and paid by the State they will have to be paid from the appropriation made for your two years' maintenance in Section 36 of the law.

It is provided in the Constitution by Section 34 of Article V, that “No money shall be paid out of the Treasury except upon appropriations made by law, and on warrant drawn a proper officer in pursuance thereof, except interest on the public debt.” And, further, by the provisions of Section 12, Art. XII, the appropriation of public moneys is prohibited for a period longer than two years.

It will therefore be readily seen and understood by you that Section 8 cannot have the force and effect of appropriating anything additional to the amount appropriated by Section 36 of the law.

Respectfully submitted,

(Signed) ALBERT J. GALEN,

Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, April 11, 1907.

Board of Railroad Commissioners, Helena, Montana:

Gentlemen:—I am in receipt of your favor of the 4th inst. presenting for decision by this office the following question:

Has the Board of Railroad Commissioners under the provisions of Section 19 of the law (Chap. 37, laws 1907), power to compel a railroad company to make regular stops with its passenger trains at stations where their regular schedule does not provide for stoppage at said station, provided, in the judgment of the Board such stoppage is deemed necessary for the reasonable accommodation of the public?

In answer you are advised that the Board has such power, if after investigation it is found that the railroad company is guilty of discrimination, or instances where no sufficient or adequate train service and accommodations are furnished to the inhabitants of such stations and the traveling public.

Prentice & Egan Commerce Clause of the Fed. Const. P. 184.

Statutes have been passed in several states compelling railway companies to stop their regular passenger trains at county seats, and such statutes have been held valid and constitutional by the court.

Chicago & A. Ry. Co. vs. People, 105 Ill. 657; 143 Ill. 434.

R. R.. Co. vs. State, 8 Ohio C. C. Rep. 220.

State vs. Gladson, 57 Minn. 385.

This last named case, under title of Gladson vs. Minnesota, was affirmed in 166 U. S. 427.

Our opinion is that if the legislature may pass such laws, that a railway commission, by virtue of the police powers of the State, may also make the needed regulations along the same general lines.

However, the Supreme Court of the United States, December 3rd, 1906, decided that the Mississippi Railroad Commission had no authority to require a railway company to stop its interstate mail trains at specified county seat where proper and adequate facilities are otherwise afforded that station. This opinion is a very interesting and instructive one, but the court practically decides that each case should be decided upon the facts involved in the particular case presented. And there is also a suggestion quoted therein from the Circuit Court of Appeals, that instead of ordering mail trains engaged in interstate commerce to stop, that probably the commission could have ordered more trains to run if the evidence showed lack of accommodations.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, April 11, 1907.

Board of Railroad Commissioners, Helena, Montana:

Gentlemen:—I am in receipt of your favor of the 4th inst. presenting for decision by this office the following question:

Does the mandatory investigation required by Section 16-A of the Railroad Commission Law make it obligatory upon the Board or some member thereof to make personal investigation at the scene of the accident as soon as possible after the Board shall have received notice from the railroad people of an accident, or is it optional with the Board to make subsequent investigation by subpoenaing witnesses and taking testimony at such subsequent hearing?

We answer that you undoubtedly have the power and authority to proceed and investigate as above suggested. However, your good judgment and discretion will no doubt prompt you to first attend to the more important matters pertaining to the law and your duty thereunder, such as the fixing of rates, providing against unjust discrimination as to localities or persons, investigating shortage of the car supply, inadequate service and other matters of importance to the people, rather than employing all the time of your members, collectively or individually, in the personal investigation or accidents where little benefit or assistance will result in comparison with other work required to be done under the Act. Again, in many instances a personal visit to the scene of the wreck would be fruitless of results.

You are advised therefore that you may by subpoena require witnesses to be present at your offices and testify as to the facts when there has been an accident such as is described in said section, and that you may depute one of your number to hear such evidence, have same transcribed and filed in your office, or adopt such other suitable method to obtain the evidence and information required as will best secure satisfactory results, expedite matters and subserve your purposes.

I will be glad to assist you in this work in person, or by one of my assistants, whenever you may deem a matter of sufficient importance to require our presence.

Respectfully submitted,

Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, June 3rd, 1907.

State Board of Railroad Commissioners, Helena, Montana:

Gentlemen: I have your request for an opinion, reading as follows:

"Will you please inform the Board of Railroad Commissioners whether that portion of Section 14, of the Railroad Commission Law of Montana, which provides that rates, etc., fixed by the Board shall become effective twenty days, etc., is effected by that portion of the Federal Law as shown in Section 12, Interstate Commerce Commission Tariff Circular No. 10A, a copy of which accompanies this request."

You will note that Section 14 to which you refer provides that the classification and rates fixed by the Board shall become effective twenty days after the railroad effected thereby shall have received certified notice thereof from the Board. Tariff Circular No. 10A., in making reference to a thirty day provision, complies with the law as laid down in Section 6 of the Interstate Commerce Act, as amended June 29th, 1906. You will note that the Interstate Commerce Act, providing for a thirty day provision, refers to changes made in rates, fares and other charges fixed, made or changed by a common carrier, while our State law above mentioned refers only to the time when tariffs, schedules and rates shall go into effect when fixed or changed by the Railroad Commission of the State of Montana.

For this and other reasons I advise that there is no conflict in the State and National Provisions of law relative to the time when the rates or tariffs are to go into effect.

Respectfully submitted,

(Signed) ALBERT J. GALEN,

Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, August 14, 1907.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I am in receipt of your favor of the 13th inst., asking the opinion of this office with respect to your power and authority under the law to modify and establish rates of any character locally within the State without giving the notice prescribed by law. In this connection you state that it will be to the great benefit and advantage of the people, and make more effective your work, if such delay can be obviated and emergency tariffs be put into effect by your order at once.

In answering this question we are required to turn to Section 15 of the Railroad Commission Law (Chap. 37, Laws 1907, page 68) and endeavor to interpret and construe the meaning, intent, and purpose thereof.

By said section it is provided that the Board shall have the power from time to time to change, alter, amend or abolish any classification or rate established by it, when deemed necessary. And further, that such action on the part of the Board shall be "put into effect in the same manner as original classifications or rates." Ordinary classifications or rates are put into effect as provided by Section 14 of the Act, and by said section it is required that notice be given and published both of the intent of the Board to finally fix and decide the rates and classifications, and the date of taking effect of the rates established by the Board. The notice provided for in this section is a matter of personal privilege to the railroad companies and certainly can be by them waived. But unless the company were willing to waive such notice, and acquiesce in your order modifying rates regularly established and effective, it would be necessary for you to pursue the procedure outlined in said Section 14 in order to alter or amend a rate or classification. Now, again reverting to the language used in Section 15 of the Act, "the original classifications or rates" are by you put into effect by virtue of your formal order fixing the rates. And while it is true that your order is not effective, so far as the railroad company effected is concerned, unless you have followed the procedure outlined in Section 14, still, if the railroad company waives notice and agrees to your order, there can be no question as to your right to make supplemental orders amending or changing the rates or classifications by you originally established to meet emergency cases of the character of which you make reference.

Respectfully submitted,

(Signed) ALBERT J. GALEN,

Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, Nov. 8, 1907.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—Your letter of the 7th, inst. received, asking for advice as to whether or not a railroad company, (to-wit, the Northern Pacific) operating wholly or in part within the State of Montana can:

(1) As a railroad regulation, or in any other way, collect from passengers on its trains who tender cash fare for their passage, the sum of ten cents on each fare of two dollars and under, and twenty-five cents on each fare over that amount, which penalty sum is refunded at any ticket office of the company upon presentation of the conductor's slip showing that it has been paid?

(2) Can a railroad company refuse to pay this amount if the claim is not presented within thirty days?

(1) The Constitution of Montana in paragraph 5 of Art. XV, has given the legislature power over railroads in the control of their rates. The legislature in the exercise of that power has limited the charge on railroads for passengers of three cents per mile, and that no excess greater than ten cents is to be charged or collected from any passenger with promise of refund of the same. Hence, it follows that the charge of ten cents is exclusive, and that a demand for any greater sum would be a violation of the law referred to.

Session Laws 1905, pages 181 and 182.

The legislature has further within its power established a railroad commission, giving it power to establish rules and regulations dealing with the passenger and freight trains of railway companies operating wholly or in part within the State of Montana.

Session Laws 1907, pages 68-86, inclusive.

That Commission has passed a rule or regulation whereby no railroad company can issue a tariff or change one covering either passenger or freight rates without its permission. Hence, a proposed change, if without their authorization, would be a violation of that board's rules and regulations, as well as the law referred to.

(2) The rule of the railroad companies requiring rebate checks or slips to be presented to the company within thirty days has been in effect for some time and was adopted by your body at its meeting, fixing the rates, held on July 25, 1907. Hence, it can only be changed by you in the manner required by law or your practice. Railways may make such regulations and rules for the management of their business as are not in violation of the law and are reasonable.

Sec. 894, par. 10 and 11, Civ. Code, Mont.

See also 6 Cyc. 545, and cases cited.

There is nothing in the law which forbids a railway company requiring claims of this kind to be presented within a reasonable time and requiring it as a reasonable regulation,

1. Elliott on Railroads, Sec. 200,

4. Elliott on Railroads, Sec. 603, and cases cited,

6. Cyc. 548, and cases cited.

In my opinion, the rule, requiring such claims to be presented within thirty days is a reasonable regulation; provided, that the railroad company furnishes ample opportunity for the holder of any rebate slip or check to present the same for payment.

Very truly yours,

(Signed) ALBERT J. GALEN,

Attorney General.

Helena, Montana, Nov. 8, 1907.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I am in receipt of your favor of the 7th inst., asking for opinion of this office as to whether you have the authority to compel the Northern Pacific Railway Company to furnish coal cars for use on the Yellowstone Park Railroad. It further appears from your letter that this Yellowstone Park Railroad is an independent line of road not owned or operated by the Northern Pacific Railway, and extends from the Bear Creek Coal Mines to Bridger, Montana, at which latter point it forms a junction with the Northern Pacific Railway.

You are advised that one common carrier cannot be compelled to furnish rolling stock or equipment for the use of another carrier, either public or private, unless by virtue of some contract or agreement between the two carriers. You therefore have no authority to compel the Northern Pacific Railway to furnish cars or other equipment on an independent line of road for the purpose of facilitating the conduct of business on and over such independent line. The way to deal with the situation presented would seem to be by regulation and order directed to the Yellowstone Park Railroad.

Yours very truly,

(Signed) ALBERT J. GALEN,
Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, Jan. 17, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—We have your letter of January 17th, with regard to the complaint made by Hon. Joseph Corby, Mayor of the City of Butte, regarding the condition of the Northern Pacific viaduct at Harrison Avenue, Butte, Montana.

In reply we beg to advise you that the jurisdiction of your Board is stated, generally, in Section 11, House Bill No. 1, enacted by the Tenth Legislative Assembly of the State of Montana, to quote:

"The provisions of this Act shall apply to the transportation of passengers and property between points within this state," etc.

Further, it appears that the term "transportation" is defined by the same section of the act referred to: "the term 'transportation' shall include all *instrumentalities* of shipment or carriage." This, we take it, gives your Board jurisdiction over tracks, trestles, bridges and viaducts, when it appears that their condition is unsafe for the transportation of passengers or property. But from a careful perusal of your correspondence files, transmitted with your letter, we find that there is a question as to whether the alleged unsafe

condition of the Harrison Avenue viaduct results to the public using said highway or to the public traveling by rail. It further appears that there is an agreement or contract now existing between the Northern Pacific Railway Company and the proper authorities of the city of Butte concerning the kind of structure to be placed and maintained at the points mentioned, and we believe, in view of these facts, that the adjustment of this matter should properly be left to the City Council and officers of the City of Butte and the Northern Pacific Railway Company.

We therefore advise you that, in our opinion the Board should not at this time entertain the complaint made by the Mayor of the City of Butte.

Very truly yours,

(Signed) ALBERT J. GALEN,
Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, January 24, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I have your letter of January 16th, 1908, together with copy of letter from C. A. Spaulding with reference to excess on cash fare paid by Mr. Spaulding between Butte and Helena on the Great Northern Railway.

After consulting your files, particularly with reference to the adoption of the passenger tariffs submitted by the Great Northern Railway Company, I find that the charge is entirely in conformity with such passenger tariffs as adopted by you. The particular law to which your letter refers (Chap. 87 of the Acts of 1905) seems to be somewhat ambiguous with regard to the excess fare of ten cents collected from passengers, "with promise of rebate or refund of such excess." I think the tariff with regard to this particular, as accepted by the Railroad Commission should rule, and I advise that the Board do not entertain the complaint made by Mr. Spaulding for refund.

Very truly yours,

(Signed) ALBERT J. GALEN,
Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, January 24, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I have your letter of January 22nd, 1908, asking my advice as to whether a member of your commission or an employee thereof can be subpoenaed as a witness in a damage suit brought against a railroad company operating within the State of Montana. I beg to advise you that

a subpoena of a court must be obeyed by the members of the board and the employees thereof, but I take it that you are inquiring particularly as to whether the members of the board and employees would be required to answer questions in their examination upon the witness stand concerning matters which may have been divulged to them in confidence. As to the right of the board or its employees in that matter; that is, concerning testimony which might be privileged, I cannot assume to advise you further than that counsel in any particular case would protect you, and before going to testify, if you know the nature of the testimony which you are expected to give, I should be very glad to advise you as to whether you may invoke your right, which is the same as that of any other witness in regard to confidential or privileged communications.

Very truly yours,

(Signed) ALBERT J. GALEN,
Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, March 13, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I am in receipt of your favor of the 9th inst., respecting your determination to modify your rates heretofore established and promulgated with respect to cash fares paid by passengers on the train in instances where they have not procured a ticket. In this connection you make inquiry as to whether or not, if the commission were to so change this tariff as to permit the collection of twenty-five cents instead of ten cents, where the amount of fare collected is two dollars, or over, the provisions of Chap. 87, Laws of 1905, would intervene so as to prevent the commission taking such action.

If said Chapter 87, Laws of 1905, is not unconstitutional, it is amended by implication by virtue of Chapter 37, Laws of 1907, creating the Railroad Commission of Montana, and conferring upon it power and authority to fix, establish and classify rates for the carriage of freight and passengers. Accordingly, you are advised that there is no objection to your making this change.

Very truly yours,

(Signed) ALBERT J. GALEN,
Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, April 24, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I have your letter of April 9th, in which you request an opinion as to your authority in the matter of the application of the Billings Chamber of Commerce for a change of line on the C., B. & Q. R. R. between Toluca, Montana and Scribner, Montana. In reply thereto I advise you that your authority does not extend to the arbitrary fixing a line of construction. That is a matter which of course, is entirely within the province of the railway companies. However, if the company is desirous of making the change, suggested by the Billings Chamber of Commerce you may indicate to them as well as to the Secretary of the Billings Chamber of Commerce that authority to make the change if requested would be readily granted I do not see though that the Railway Company need to have authority from the Commission to abandon any or all of their line and construct a new line along a different route.

Yours very truly,

(Signed)

ALBERT J. GALEN,

Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, May 8, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—Your letter dated May 2nd, 1908, directing me to institute proceedings against the Northern Pacific Railway Company for violation of an order made by you April 15, 1908, and effective May 1st, 1908, requiring said railway company to discontinue its practice of "backing" Class Z engines from Blossburg to Helena, has had my careful attention, and before commencing action in compliance with your respect therein contained, I desire to lay before you the result of my investigation of the law covering the matter. The proceedings desired by you is the prosecution of the railway company for the violation of an order of the board made in pursuance of the powers delegated to your board by House Bill No. 1, Tenth Legislative Assembly, Laws 1907, page 68. The particular section under which the order is made seems to be Section 16 of said law. This section of the law as it passed the House and was sent to the Senate read in part as follows:

"The Board shall have the general supervision of all railroads, express companies, car companies, sleeping car companies, freight and freight line companies, and any common carrier engaged in the transportation of passengers or property in this state. * * *

On February 18, 1907, as appears from the Senate Journal, the Senate adopted an amendment to said section as follows:

“Amend Section 16 on page 8 by inserting after the words, “The State” in line 165 the following: ‘In all matters appertaining to the duty of said Board and within its power and authority under the provisions of this Act.’”

You will note at this juncture that the insertion of the added words “in all matters,” etc., were to follow the words “this State” and therefore *preceded* the period then following the words “this state”. After the adoption of this amendment the law, so far as this section is concerned, reads as follows:

“The Board shall have the general supervision of all railroads * * * and any common carrier engaged in the transportation of passengers or property in this State. In all matters appertaining to the duty of said Board and within its power and authority under the provisions of this Act.”

and it was in this form that this section was finally passed by the house and became a law. However, an examination of the enrolled copy on file in the office of Secretary of State shows a period after the words “this State” and the amendment referred to above begins with a capital letter. Reading the amendment as shown in the enrolled copy it is impossible to make sense of it. I give it to you as my opinion that the Supreme Court of this State, if asked to interpret this particular section would preserve its sense and thereby save its effectiveness, even at the sacrifice of the punctuation marks appearing in the enrolled bill, and to preserve the effect of the amendment it is necessary to read it as it was introduced and adopted in the Senate; that is, without any punctuation mark after the words “this State.”

State vs. Pilgrim, 17 Mont. 311.

Mut. Co-op. Inc. Co. vs. Meyers, 77 Pac. 628; 10 Idaho 294.

State vs. Denel, 66 Pac. 1037; 63 Kan. 811.

If my view of the interpretation which would be placed upon this section is correct, then the “general supervision” given you over railroads is only “in matters appertaining to the duty of said board and within its *power* and *authority* under the provisions of this Act.” Therefore we would have to look to the remainder of this bill, as passed, to find what is “the duty of said Board and within its power and authority under the provisions of this Act.”

After a very careful examination of the law creating and establishing your Board and defining your powers and duties I am unable to find any section or clause upon which to predicate your supervision or control in any measure of the operation of railroads except in so far as you are given power by Section 19, which reads as follows:

“The Board shall have the power, and it shall be its duty, to compel any and all railroads subject hereto, to provide, maintain and operate sufficient train service, both freight and passenger for the proper and

reasonable accommodation of the public, and to provide and maintain suitable waiting rooms for passengers, and suitable rooms for freight and baggage at all stations."

I therefore advise you that in my opinion it will be extremely difficult to bring to a successful determination any proceeding brought for a violation of the order above referred to.

However, if notwithstanding my decision in the matter you desire a judicial determination of your powers along these lines, I am willing to proceed to have the matter adjudicated.

Very truly yours,

(Signed) ALBERT J. GALEN,
Attorney General.

DEPARTMENT OF ATTORNEY GENERAL.

Helena, Montana, July 6, 1908.

The Railroad Commission of Montana, Helena, Montana:

Gentlemen:—I am in receipt of your letter of the 24th ult., submitting for the consideration of this office the following question:

"Has the Railroad Commission of Montana the authority to prohibit and prevent the Great Northern Railway Company from tearing up its track between Lakeview and Marion, in Flathead County Montana."

You also transmit with your letter a transcript of the testimony taken at the hearing by the Commission in December, 1907, at Kalispell, Montana; also a copy of telegram received by you bearing date June 21, 1908, as follows:

"The Great Northern is now tearing up track between Lakeview and Marion. In behalf of thirty-four resident freeholders effected thereby, we ask that you immediately ask this action stopped."

I have heretofore expressed to you my opinion to the effect that the Commission had no authority in the premises.

The question submitted is largely dependent upon the facts, but the following authorities may have some bearing upon the question.

Sec. 898 Civil Code.

State ex rel. Knight vs. Helena Power & Light Co., 22 Mont. 391.

Chap. 37, Sess. Laws 1907, and particularly Sec. 19, considered in connection with the other sections of said chapter conferring power on the commission.

It appears from the records submitted with your request that in November, 1907, a verified complaint was filed with the commission containing seventeen separate specifications of charges against the Great Northern Railway Company.

Specification No. 9 of this complaint relates to the operation of the Great Northern Railway from Marion eastward through Pleasant Valley to Lakeview. Said Specification No. 9 stating:

"A large number of people live along the line of the said railway west of Marion and they are denied any railroad facilities for the transportation of themselves or their freight; that a still larger number would live out there if railroad facilities were afforded them; that the Great Northern Railway tore down all its stations at the above points on this old main line when the road was changed, and at the places where said train now stops there are no accommodations whatever for passengers or freight, and it is reported that the Great Northern is going to take up this track."

The intention of the railroad to take up this track was known at the time this charge was made. Specification No. 12 of this complaint is to the effect that at certain points there are no accommodations or insufficient accommodations for passengers or for handling freight, and Lakeview and Marion are named as two of these places.

A public hearing was by the Commission had on all of the charges contained in the complaint in December, 1907, at Kalispell, Montana. At that hearing when Specification No. 9 was read counsel for complainant stated:

"I will say that as to No. 9, unfortunately for the general public, the witnesses we expected to bring from Pleasant Valley have, I believe, with one exception, refused to come,—maybe two exceptions,—for the reason that they say they have settled with the Great Northern Railway Company for damages for the failure to run these trains, and they signed some sort of an agreement whereby they were not sued for it. * * *

Thereafter in March, 1908, the Railroad Commission made its findings respecting the charges contained in the complaint, and regarding said Specification No. 9 the Board said:

"No evidence having been submitted with respect to this charge * * * therefore this complaint is ordered dismissed."

The Board further found regarding Specification 12, and Specification 13:

"Both of these charges having been formally withdrawn by the complainants by statement in writing are therefore hereby ordered dismissed from further consideration."

If at the hearing of the complaint involving the charge stated in the telegram, no evidence was produced because the people living in the vicinity had "settled with the railway company for damages for failure to run these trains" these findings made by the Board are either to be regarded by the commission as *res adjudicata* or else another hearing should be had.

However, it appears that the main line of the Great Northern Railway Company formerly extended from Columbia Falls, Montana, through Marion.

Pleasant Valley and Lakeview and on to Jennings, but that prior to the enactment of said Chap. 37, Laws 1907, creating the Railroad Commission, the railroad company changed the grade and location of its main track by leaving the old track at a point near Columbia Falls; thence westward to the Kootenai River; thence south to Jennings, leaving Marion, Pleasant Valley and Lakeview off the main line. The old track was then taken up from Jennings eastward to a point a short distance west of Lakeview and all through trains were run over the new track by way of Whitefish and Shields; thence down the Kootenai River to Jennings. No regular train service was maintained on the old track to Lakeview or Pleasant Valley, or to any points, at least, west of Marion though trains were occasionally run there for special purposes. The company had in fact abandoned this part of the old track. No stations were ever established or maintained at either Marion or Pleasant Valley. All this occurred prior to the enactment of the law creating the Railroad Commission and such law is not retroactive.

Under this state of facts you are advised that the Railroad Commission of Montana is not vested with power and authority to grant the relief demanded as expressed in the question submitted and contained in the telegram above quoted.

Very truly yours,

(Signed) ALBERT J. GALEN,
Attorney General.

LEGAL ACTIONS BROUGHT BY THE COMMISSION.

Under Section 20 of the Act establishing and creating a Board of Railroad Commissioners for the State of Montana, the Attorney General is constituted the attorney and counselor of the Board; and, under Section 24 of the same Act, it is made the duty of the Attorney General, or any County Attorney, to enforce by equitable action, the rates, classifications, rulings orders and regulations made or established by the Commission.

While the Commission has, during the past fifteen months, promulgated a great many rates and classifications, and made numerous orders and regulations for the conduct of the different departments of the railroad business, it has been unnecessary, except in a very few cases, for the Commission to resort to the Courts to secure an enforcement of these orders. The only action which the Commission has felt itself called upon to direct the Attorney General to institute suit, was in the matter of the order issued April 15th, 1908, directing the Northern Pacific Railway Company to turn its Class "Z" helper engines at Blossburg, Montana, and run them into Helena going forward; the Railroad Company having refused to abide by this order, basing their refusal upon a lack of jurisdiction in the Board. Suit was commenced at the direction of the Commission to obtain an injunction, preventing the backing of these engines into Helena. This suit was instituted and tried before the District Court of the First Judicial District, Judge Bach presiding, and this Court refused to issue the injunction. No appeal has, as yet, been taken to the Supreme Court, but the question of the validity of the order will be finally determined there.

The Commission was also instrumental in procuring evidence and beginning proceedings against the Northern Pacific Railway Company, for a violation of the State law providing for the hours of employment of trainmen and operators, commonly known as the "Sixteen Hour Law." This case was tried in the District Court of the First Judicial District, before Judge Clements, which trial resulted in the conviction of the Railway Company, and the imposition of the fine. Upon an appeal being taken to the Supreme Court of the State of Montana, the judgment of the lower court was affirmed, and the fine was paid by the Railway Company.

Under direction of the Commission, the Attorney General prepared an information and filed the same in the District Court of Chouteau County, charging the Great Northern Railway Company with the violation of what is known as the "Dinky Caboose Law." The Commission later advised the Attorney General that subsequent to the filing of the information, the Railway Company, as rapidly as possible, substituted standard cabooses, and was complying with the law by making the change as early as practicable. Upon this notification, the Attorney General directed the County Attorney of Chouteau County to dismiss the criminal information filed against the Great Northern Railway Company.

However, of the multitude of tariffs, classifications, orders, rules and regulations made, adopted and promulgated by the Commission, the railway companies have not seen fit to contest others than those herein mentioned. In those instances where it was possible, it has been the policy of the Commission to meet with complainants and the representatives of the railroad companies in informal conference, and having thus gained knowledge of all the facts, the Commission has usually been in a position to promulgate orders so reasonable in their character as to meet with the entire approval of the public interested, and yet afford no grounds for successful contest by the railway companies.

RAILROAD COMMISSION MAP OF MONTANA.

The Commission has recently published and now has ready for distribution, a new map of Montana, 34x53 inches in size, printed in colors and showing, in addition to all postoffices and stations in the state, all recent railroad construction.

This is the only complete up-to-date map of Montana that has been published during the past ten years and will prove of much interest to our citizens as well as to residents of other states, who are interested in Montana. Copies of the map are mailed free, upon application to the Commission.

REPORTING OF DELAYED PASSENGER TRAINS.

The Commission early received many verbal and two written complaints with reference to the reporting of delayed passenger trains; in fact it appeared that this was one of the greatest grievances that the people had against the Railway Companies, judging from expressions upon the subject made to the Commission.

Under date of October 9th, 1907, the Commission issued an order (see Order No. 2) requiring that delayed passenger trains be correctly reported and since that time the service has been greatly improved.

ESTIMATED LOSSES SUSTAINED BY RAILROAD COMPANIES IN MONTANA AS A RESULT OF FLOODS, SPRING OF 1908.

During the months of May and June, 1908, the unprecedented rainfall in Montana so raised the streams of the state that many new channels and courses were formed, thereby causing great loss to some of the railroad companies, through the washing away of portions of their lines.

For a period of three weeks all traffic on the Northern Pacific and Great Northern Railways was practically suspended.

Believing that the same would be of interest to citizens of the State, the Commission requested the Railway Companies operating in Montana to file figures showing as nearly as possible, the losses sustained as a result of the freshets. Data was accordingly filed by the different roads as follows, showing a total estimated loss of \$4,353,208.67.

ANNUAL REPORTS
OF THE
Railroads Operating in Montana
FOR THE FISCAL YEAR ENDING
JUNE 30th, 1907.

In compiling the statistics, etc., contained in the following pages, it has been the aim of the Railroad Commission to formulate the same comparatively. Believing the public would not be interested in some of the detailed figures of the railroad companies, certain portions of the annual reports rendered by the railroads have been condensed and only the totalized figures are shown herein. These instances are few and occur only in cases where the Commission considers that detailed figures would be uninteresting. Should there be any parties desirous of obtaining more detailed data covering particular portions of the following pages, such information will be gladly furnished in so far as it is within the power of the Railroad Commission to do so.

Many instances will be noted where the railroads do not furnish to the Commission statistics covering traffic locally in Montana. In every case of this character explanatory notations have been made.

A goodly portion of the fiscal year had expired before the Commission was organized. The railroads had not kept, in some cases, detailed account of business within the state. It would have been a prodigious task for the railroads to go through their records and segregate the Montana from the interstate traffic. The Commission concluded, therefore, that for the first annual report, the statistics furnished, would answer the purpose, it being understood with all railroads operating in the State that future reports will be complete as to Montana statistics.

Nature of agreement or controlling relation between the Company named and the Company by which it is operated or controlled, whether through lease, contract, or other agreement or through ownership of capital stock.

CHICAGO, BURLINGTON & QUINCY RY.

The roads and property of the Chicago, Burlington & Quincy Railroad Company are leased to and operated by the Chicago, Burlington & Quincy Railway Company, a corporation of the State of Iowa under written lease for 99 years, dated November 20, 1901; the rental being payment by the lessee of all taxes assessed against the property, and other fixed charges, together with interest upon all outstanding bonds of the lessor, and sinking fund requirements and dividends upon the capital stock of the lessor at the rate of seven (7%) per cent annually. The General Balance Sheet and the Income Account are made in composite form and show the assets and liabilities of both Companies.

OREGON SHORT LINE R. R.

The Union Pacific Railroad Company owns \$27,340,700.00 of the capital stock of this Company and thereby controls it. This Company, however, should not be treated as subsidiary to the Union Pacific Railroad Company, as this Company's property is managed by its own Board of Directors, and operated by its own traffic, operating and accounting officers.

EXPLANATORY NOTES.

1. This includes earnings on business handled within State of Montana.

2. This includes operating expenses on business handled in the State of Montana, as well as interstate business, as we know of no equitable way of dividing agents' salaries between state and interstate business. For instance, the pay of agent at Butte is \$150.00 per month, and it would be impossible to determine what portion of his time is occupied in handling state business and what time is occupied in handling interstate business. We have no record of the amount of interstate business.

These same questions have been asked by other states, such as Nebraska, Iowa, Minnesota and Washington, but we have been able to reply to them only as above.

Note.—In answer to question "Number of employes entire line and their daily compensation": We have approximately 5,300 employes to whom we pay salaries aggregating \$1,996,793.54, divided into Office Salary, \$1,-380,541.09 and General Salary, \$616,252.45. Our accounts are not kept in a manner that enables us to give the information as requested. Some of the employes are joint with railroads, and other express companies, and some are hired by the trip or for extra service.

The figures applying to the entire line and State of Montana are arrived at in the following manner:

Figures relating to the entire line, from statement of earnings and expenses for year ending June 30, 1907, on file in this office.

Gross earnings in State of Montana, \$7,890.31, are the domestic earnings in that State from agents, statements of way-bills and proceeds revised and entered on register in this office.

Operating expenses in Montana, \$7,300.39, computed by applying to the domestic earnings the percentage that the entire operating expenses (less money order expense) bears to the gross earnings of the entire line 91.48 per cent.

The net income from other sources in Montana, would be the net earnings from money orders, an amount small and not ascertainable.

The answers to questions 6 and 7, relating to State of Montana, are taken from advices received from Superintendent Rogers.

Salaries relating to entire line are taken from agents' statements for the year ending June 30, 1907.

BEFORE THE

Railroad Commission of Montana

INCLUDING FORMS, ETC.

I.

HEARINGS OR SESSIONS.

The office of the Board shall be in the Capitol Building in the City of Helena, and said office shall always be open during business hours, legal holidays and non-judicial days excepted.

The regular session of the commission shall be held on the third Tuesday of each month at its office in the Capitol Building at Helena, Montana.

Special sessions may be held at any time or any place *within the state* as the commission may order. Requests or petitions for special sessions or public hearings must be made in writing and addressed to the Railroad Commission of Montana. The commissioners may, however, call a hearing upon any proper complaint, or to advise themselves before making or refusing to make an order.

Sessions for receiving, considering, and acting upon petitions, applications, or other communications, and also for considering and acting upon any business of the commission, other than such as has been ordered for public hearing, will be held at its office daily when the commission is in Helena.

Before any hearing is had upon a complaint both parties will be notified and notice given, as may be directed, of the time and place thereof by the Secretary. Before causing notice to be issued to the party complained of, the commission may notify the party against whom complaint is made, and, in order to avoid the expense and inconvenience of a formal trial or hearing before the commission, request such party complained of to comply with the request, or invite them to an informal conference with relation thereto.

Whenever any hearing is called upon any special proceeding the Secretary shall give each of the parties to such hearing three days notice thereof; provided, that this time may be shortened or extended as the circumstances of the case require or the commission may order.

II.

COMMUNICATIONS.

All complaints, requests, applications or other communications to the railroad commission must be made in writing; it will be presumed that such as are not so made have never been brought before the commission.

All complaints, petitions, requests, applications, letters, telegrams, or other communications for the commission for its consideration must be addressed to the Railroad Commission of Montana, Helena, Montana, unless otherwise specifically directed.

All official communications or correspondence emanating from the Board shall be signed as follows: The Railroad Commission of Montana, by the name of the official title of the member or employee of the board writing such communication.

The receipt of all communications to the commission upon which a reply or order cannot be at once made, or received during the absence of the commission, shall be acknowledged by the Secretary.

III.

PRACTICE.

The commission does not require of those appearing before it a compliance with technical rules of pleading or of evidence, its object is to get the substance of complaints, answers, requests or evidence, and to reach this it follows no rules of practice or evidence to the extent that it is bound thereby. Each case is to be investigated and decided upon its own needs and requirements; provided, that evidence introduced shall as far as possible be introduced in the order given in the pleading under which it is presented.

IV.

PLEADINGS.

The commission does not require of parties appearing before it any set rules of pleading, but it is requested that parties use as far as possible the forms which have been adopted by the commission and are printed herewith.

No pleading or complaint is required to be verified, unless directed by the commission.

It is requested that all parties furnish four copies of their pleadings, but failure to do so does not involve any penalty, as this is but a request to assist the commission.

V.

PARTIES.

Any person, firm, company, corporation, association, society, body politic, city or municipal corporation may complain to the commission and be heard either in person or by counsel at the commission's office or at public hearing as the commission may direct, upon any question or questions within the commission's authority to investigate, remedy or regulate.

The party complaining, requesting or petitioning is called the "complainant" and the party defending or against, or of whom anything is complained of or asked, is called the "defendant."

Persons or carriers not made parties to any proceeding may petition or request to be heard therein, and upon showing sufficient interest to entitle them, may be allowed to appear, such parties are called "intervenor" and when allowed to appear shall have equal rights with the parties thereto. All parties served by mail with any paper must at once notify the Secretary and the opposing party of the receipt of the paper served.

VI.

COMPLAINT.

All complaints must be in writing briefly setting forth the acts complained of and closing with a request or prayer for the relief sought.

The complaint must contain the names of the party complainant and the parties complained of in full.

The name, residence, or address of the complainant or his attorney must be stated.

Complaints may be in the form of a letter or by petition, but it is requested that the parties use the form approved by the commission.

VII.

ANSWERS.

The carrier or party complained of must answer within ten days from the date which the complaint was received, but the commission may in any particular case shorten or lengthen the time as they may see fit.

The original answer must be filed with the secretary of the commission at the commission's office. It is requested by the commission that the defendant furnish three additional copies for the use of the commission.

The answer should specifically admit or deny the allegations or charges of the complaint. And, if denying, should also set forth the reasons for denying or for a non-compliance with the request or prayer of the complaint; provided, that the defendants may be allowed at any time to, by way of answer, set forth that they have complied with the request or prayer of the complaint.

VIII.

WITNESSES.

Witnesses appearing before the commission, or wishing to be heard by giving testimony must be sworn before their testimony will be considered, unless the commission otherwise directs. This rule shall apply to all persons who offer to give any testimony before the commission; provided, that any attorney making a statement of his case, as attorney, shall not be required to be sworn, for the purpose of giving such statement.

All witnesses shall be subject to cross-examination within the limits the purpose of the hearing at which they are testifying, either by the opposite party or their or its attorney, and by the members of the commission or their attorney.

Any person testifying before the commission shall be deemed to be before the commission for any purpose they desire to question about within their authority. (The rule applies to the commission only.)

IX.

Subpoenas for the production of books, papers or documents (unless directed by the commission upon its own motion) will only be issued upon application in writing stating generally what books, papers or documents are required.

X.

SERVICE OF PAPERS.

Copies of papers, notices and other papers must be served upon the adverse party or parties either personally upon their representatives, as requested, or by mail. And when any party has appeared by attorney, service upon such attorney shall be deemed proper service. The Secretary will serve all complaints, answers, notices and other papers, upon the party against whom they are directed, or the party who is directly interested therein.

XI.

ORDERS.

All orders or decisions of the commission shall be signed The Railroad Commission of Montana by the Secretary.

Upon the issuance of any order by the commission against any railroad, carrier, express company or corporation, must promptly notify the Secretary of the receipt or service of such order, and likewise promptly upon a com-

pliance therewith, notify the secretary of such compliance and the date, and when a change in rates is required such notice must be given in addition to the filing of the scale or tariff showing such change of rate.

XII.

COPIES OF PAPERS.

It shall be the duty of the Secretary to prepare, serve and furnish all necessary copies of complaints or pleadings in any proceeding to the opposing party or his counsel.

3854. (§ 471.) All corporations for profit must issue certificates for stock when fully paid up, signed by the president and secretary, and may provide, in their by-laws, for issuing certificates prior to the full payment, under such restriction and for such purposes as their by-laws may provide.

3855. That the delivery of a stock certificate of a corporation to a bona fide purchaser or pledgee for value, together with a written transfer of the same, or a written power of attorney to sell, assign and transfer the same, signed by the owner of the certificate, shall be a sufficient delivery to transfer the title as against the creditors of the transferor and subsequent purchasers:

but no such transfer shall affect the right of the corporation to pay any dividend due upon the stock, or treat the holder of record as the holder in fact, until such transfer is recorded upon the books of the corporation, or a new certificate is issued to the person to whom it has been transferred.

(Act approved March 7, 1907.)

3856. (§ 473.) Shares of stock in corporations held or owned by a married woman may be transferred by her, her agent, or attorney, without the signature of her husband, in the same manner as if such married woman were a feme sole. All dividends payable upon any shares of stock of a corporation held by a married woman may be paid to such married woman, her agent or attorney, in the same manner as if she were unmarried, and it is not necessary for her husband to join in a receipt therefor; and any proxy or power given by a married woman touching any shares of stock of any corporation owned by her is valid and binding without the signature of her husband, the same as if she were unmarried.

3857. (§ 474.) When the shares of stock in a corporation are owned by persons residing out of the state, the president, secretary, or directors of the corporation, before entering any transfer of the shares on its books, or issuing a certificate therefor to the transferee, may require from the attorney or agent of the non-resident owner, or from the person claiming under the transfer, an affidavit or other evidence that the non-resident owner was alive at the date of the transfer, and if such affidavit or other satisfactory evidence be not furnished, may require from the attorney, agent, or claimant, a bond of indemnity, with two sureties, satisfactory to the officer of the corporation, or, if not so satisfactory, then one approved by the judge of the district court of the county in which the principal office of the corporation is situated, conditioned to protect the corporation against any liability to the legal representatives of the owner of the shares, in case of his or her death before the transfer; and if such affidavit or other evidence or bond be not furnished when required, as herein provided, neither the corporation nor any officer thereof, shall be liable for refusing to enter the transfer on the books of the corporation.

3858. (§ 475.) Whenever any person or persons owning five per cent of the capital stock of any corporation, shall present a written request to the treasurer thereof that they desire a statement of the affairs of such corporation, it shall be the duty of such treasurer to make a statement of the affairs of the corporation, under oath, embracing a particular account of all its assets and liabilities in minute detail, and to deliver such statement to the persons who presented the said written request to the treasurer within twenty days after such presentation, and shall also, at the same time, place and keep on file in his office for six months thereafter a copy of such statement, which shall, at all times during business hours, be exhibited to any stockholder of said corporation demanding an examination thereof; such treasurer, however, shall not be required to deliver such statement in the manner aforesaid oftener than once in six months. If such treasurer shall neglect or refuse to comply

with any provisions of this chapter, he shall forfeit and pay to the person presenting said request the sum of fifty dollars, and the further sum of ten dollars for every twenty-four hours thereafter until such statement shall be furnished, to be sued for and recovered in any court having cognizance thereof.

3859. (§ 476.) No loan of money shall be made by any corporation to any stockholder therein, and if any such loan shall be made to a stockholder, the officer who shall make it, or who shall assent thereto, shall be jointly and severally liable to the extent of such loan and interest, for all the debts of the corporation contracted before the repayment of the sum loaned.

3861. Any corporation which shall have issued bearer certificates may establish agencies in other states and in foreign countries whereat holders or bearers of bearer certificates may, under such regulations as the corporation shall prescribe, register and deposit their bearer certificates of stock for voting purposes. Such corporation shall have the right to appoint and prescribe duties of, fix the compensation and remove at pleasure its agent or agents at such agencies, and also to establish rules and regulations for registering and depositing bearer certificates of stock, and may at any time close up or terminate any such agency. Whenever at any meeting of the stockholders of such corporation for election or other purposes any such agent shall certify to the corporation in such manner as it may prescribe, that there is registered and deposited with him, to be held by him until after the meeting for which such registration and deposit shall have been made, a bearer certificate or certificates describing each by its face number, number of shares represented and date of issue, and stating when and by whom deposited, the person who shall have made such deposit, may, in writing attested by such agent, appoint some suitable person to represent him at such meeting as his proxy and there vote the shares of stock represented by his said bearer certificate or certificates so deposited; and thereupon the person to whom such proxy shall have been given may vote the shares of stock represented by such bearer certificate or certificates in all matters and things upon which votes are cast or had at such meeting.

(Act approved March 8, 1897, § 2.)

3862. It shall not be necessary for the corporation or its officers or trustees or directors to give any personal notice or notice by mail to holders or bearers of such bearer certificates of any meeting of stockholders for the purpose of electing trustees or directors, or for any other purpose, or for any action taken or proposed to be taken by such corporation or its stockholders or its trustees or its directors at any meeting, but such notice may, in every case, be given to such holders or bearers of bearer certificates by publication in a newspaper as now provided by law and shall be valid and binding. Every holder of a bearer certificate shall be held to have waived any notice of any stockholders' meeting for any purpose, or of any action or proposed action of the corporation or its stockholders or trustees or directors except notice by publication in some newspaper when it is required by law.

(Act approved March 8, 1897, § 3.)

3863. Except as herein provided stock or shares of stock represented by a bearer certificate can only be voted or represented by actual production of such bearer certificate at the time of voting or representation and by the bearer thereof. In all cases the actual production of a bearer certificate shall, so far as the corporation is concerned be conclusive evidence of the bearer's right to vote or represent the shares it represents.

(Act approved March 8, 1897, § 4.)

3864. Dividends to holders of bearer certificates shall only be paid to the bearers thereof upon production of such certificates, except where such certificates of stock have attached to them dividend coupons payable, to bearer, in which case dividends may be paid to the bearer, of the proper dividend coupon upon its presentation and surrender without the production of the certificate to which such dividend coupons belonged.

(Act approved March 8, 1897, § 5.)

3865. Bearer certificates may at any time be converted into registered certificates such as are now provided for by law, upon the request of the bearer of such bearer certificates and the surrender of such bearer certificates to the corporation and the cancellation thereof; and registered certificates may also be converted and exchanged for bearer certificates at the request of the owners of such registered certificates and the surrender and cancellation thereof.

(Act approved March 8, 1907, § 6.)

3866. The corporation may do all acts and adopt all by-laws and resolutions necessary or proper to carry into effect the powers herein granted and to provide for details in the exercise thereof, subject, however, to the provisions of this act.

State ex rel. vs. District Court, 34 Mont. 535.

H. P. Co. vs. Spratt, 35 Mont. 108.

3896. (§ 527.) It is lawful for two or more corporations formed under the laws of Montana territory, or of this state, or that may hereafter be formed, under the laws of this state, for mining purposes, which own or possess mining claims or lands adjoining each other, or lying in the same vicin-

ity, to consolidate their capital stock, debts, property, assets, and franchises, in such manner and upon such terms as may be agreed upon by the respective boards of directors of such corporations so desiring to consolidate their interests; but no such consolidation must take place without the consent of the stockholders representing two-thirds of the capital stock of each corporation, and no such consolidation relieves such corporations, or the stockholders thereof, from any and all just liabilities; and in case of such consolidation, due notice of the same must be given, by advertising, for one month, in at least one newspaper in the county and state where the said mining property is situated, if there be one published therein, and also in one newspaper published in the county where the principal place of business of any of said corporations shall be. And when the said consolidation is completed, a certificate thereof, containing the manner and terms of said consolidation, must be filed in the office of the county clerk of the county in which the original articles of incorporation of any of said corporations are filed, and a copy thereof filed in the office of the secretary of state; such certificate must be signed by a majority of each board of directors of the original corporations, and it is their duty to call, within thirty days after the filing of such certificate, and after at least ten days' public notice, a meeting of the stockholders of all of said corporations so consolidated, to elect a board of directors for the consolidated corporation, for the year next ensuing. The said certificate must also contain all the requirements prescribed in Section 3818 (403) of this Code. This section applies to all corporations formed under the laws of this state, or territory of Montana whether formed under this code or prior thereto.

MacGinnis vs. B. & M. Co., 29 Mont. 428.

3897. That the board of directors or trustees of any stock corporation organized under the laws of either the Territory or State of Montana, whether before or after the passage of this Act and whether the same is solvent or insolvent, or whether it is a going or prosperous concern or otherwise, shall have power, and upon request of stockholders of the corporation representing at least one-half of the outstanding capital stock, and of record on the books of the company, it shall be their duty to call, by resolution, a meeting of the stockholders of such corporation, appearing as such upon the books of the corporation, for the purpose of considering the question of selling, or disposing of the whole or any part of the property and assets of every kind and description of such corporation. Such meeting shall be held at the principal office or place of business of such corporation, and at least thirty days previous notice of the time and place of such meeting shall be given to each person who appears as a stockholder upon the books of the corporation. The secretary of the corporation shall make out and deposit in the United States Post Office, postage paid, a notice of such meeting, directed to each stockholder of record of the corporation by his name and to his place of residence appearing on said records, and shall make and file his affidavit of such deposit. Such notice shall be considered as given upon the deposit of the

same in the Post Office, as above required, and it shall state the time and place of meeting and that the meeting is to consider and decide upon the question of disposing of, or selling the whole or any part of the property of said corporation. If such meeting is called for the purpose of selling, or disposing of the whole of the property of the corporation, the notice shall so state, but if it is for the purpose of selling or otherwise disposing of only a part of the property of the corporation, the notice shall so state and describe generally what part it is. A similar notice shall also be published, at least once a week for at least four successive weeks preceding the day of the stockholders' meeting, in some newspaper of general circulation published at or near the office or principal place of business of such corporation, or if there is no newspaper published in said place, then the nearest place thereto where a newspaper is published, and said publication shall be proven by affidavit of the publisher or clerk of such newspaper, filed with the Secretary of such corporation. Upon the day appointed for said meeting, if stockholders representing at least two-thirds of the whole number of shares of the capital stock of the corporation then outstanding and of record on the books of the company, appear in person or by agents or proxies filed with the secretary, the stockholders shall organize by electing one of their number chairman and some suitable person secretary.

Thereupon, any proposition for the sale or disposition of the whole or any part of the property or assets of the corporation, of every kind or description, may be considered and acted upon by said meeting, and if stockholders representing at least two-thirds of the whole number of shares of the capital stock of said corporation then outstanding, and of record on the books of the company, appearing at said meeting in person or by agents or proxies as above provided, vote in favor of any such proposition, whether proposed by the directors or trustees or not, as the stockholders may see fit, which proposition shall be in the form of a resolution specifying the particulars thereof and entered on the minutes of said stockholders' meeting, the said proposition or resolution shall be taken and adopted as the act of the corporation and shall be carried out as such and shall be approved and adopted by the Board of Directors or Trustees. The secretary of such meeting shall enter upon the minutes of said stockholders' meeting the number of shares voted for or against the proposition or resolution, and by whom voted, and stockholders voting against said proposition or resolution shall be taken as dissenting therefrom. Upon the adoption of any proposition or resolution such as above referred to, by the stockholders' meeting, the secretary of the meeting shall make out a true and complete copy of the minutes of the Stockholders' meeting, which shall be signed by the chairman of such meeting and attested by said secretary and verified by them and acknowledged as required in the case of the conveyance of real estate, and shall file the same for record in the office of the county clerk and recorder of the county wherein the principal office or place of business of such corporation is situated, and also in the office of the county clerk and recorder

of any other counties wherein any of the real property included in the proposition or resolution adopted by said stockholders' meeting is situated, and said record shall impart notice and have the same effect as other instruments required by law to be recorded, and such copies so filed and recorded, or the record thereof, or the certified copy of such record, shall be prima facie evidence of the matters and facts therein stated, and thereupon, and upon the adoption and approval by the Board of Directors or Trustees of the corporation of such proposition or resolution, the corporation and its officers shall have full power and authority to do all acts and to execute all conveyances or their instruments in writing which are necessary or proper to carry out the said proposition or resolution, and the sale, or conveyance of the whole or any part of the property of said corporation authorized by said proposition or resolution, shall thereupon take effect and have the same force as if all the stockholders of the corporation had consented thereto.

Provided, that nothing contained in this Act shall be deemed to limit or restrain the powers of the Board of Directors or Trustees of such corporations in relation to the disposition of property or the conduct of business:

Provided further, that this Act shall not be so construed as to effect any cases now pending in the courts of this state or of the United States.

(Act approved March 7, 1905.)

3898. If a disposition shall be made by sale, as above provided of the whole of the property of such corporation, the corporation shall thereby be dissolved, and its affairs shall be wound up, as provided for in other cases of the dissolution of corporations.

(Act approved March 7, 1905, § 2.)

3899. Any stockholder who shall not, at said stockholders' meeting, have voted for or authorized the proposition or resolution for the disposition of property which may have been adopted at such stockholders' meeting may, within twenty days after the date of a stockholders' meeting, give written notice to the said corporation that he does not assent thereto and also a like notice to the grantee or vendee, or any agent or representative of such grantee or vendee; *Provided*, that such grantee or vendee, or agent or representative of such grantee or vendee be within the state, and demand payment of the value of his stock, and within ten days after the service of said notice he must, or the said corporation, or its grantee or vendee, may, make application in the district court of the county where the principal place of business of the corporation is situated to have the value of his stock fixed and appraised, of which application at least ten days previous notice must be given by the person so applying to the other parties. The notices hereinbefore provided for may be served in the manner provided by law for the service of summons in cases in the district court. Upon said application, the said court shall appoint three competent and disinterested persons as appraisers, and designate the time and place of their first meeting to appraise the value of the stock of such dissenting stockholders, and give them such directions as the said court may think proper.

The court may fill any vacancies in the board of appraisers, occurring by refusal or neglect to serve, or otherwise. Said appraisers shall meet at the time and place designated by the court, and they or any two of them shall take an oath to honestly and faithfully discharge their duties, and shall hear and take evidence in relation to the value of the stock of such dissenting stockholder at the time of his dissent and find the value thereof, and return and file their report and appraisal with the clerk of said court. The charges and expenses of such appraisal shall be paid by the corporation or its grantee or vendee.

(Act approved March 7, 1905, § 3.)

3900. Either party to the appraisal and award of such appraisers may, within thirty days from the filing of the same and service of notice thereof, appeal from such award to the district court of the county in which the same is made and filed, and thereupon the value of such stock shall be re-assessed by a jury in the same manner as appeals are taken and trials had on appeals from the assessment of commissioners in condemnation proceedings provided by law. When such appraisal or award shall become final, the court shall enter judgment in favor of such dissenting stockholders and against the corporation and its grantee or vendee for the amount of said award, with expenses and costs of proceedings, and execution may be issued on said judgment as in other cases. The judgment may also provide for the sale of the property affected by the lien hereinafter provided for. The claim of such dissenting stockholder for compensation and costs, as aforesaid, and the appraisal and award and judgment thereon shall be and remain a lien upon all the real property of the corporation so conveyed or disposed of in pursuance of the stockholders' resolution, and shall be prior and superior to the rights of the grantee or vendee to all such property; but the claims of all dissenting stockholders for compensation and their several appraisements, awards and judgments, shall be equal liens upon said property, without precedence or priority between themselves. When the amount of such appraisal and costs shall have been paid to or collected by such dissenting stockholder or deposited with the clerk of the said court for him, he shall cease to have any interest in said stock or in the corporate property of such corporation which may have been sold or disposed of in pursuance of the resolution of the stockholders' meeting as herein provided, and the stock of such dissenting stockholder shall thereupon become the property of the party satisfying the said judgment or appraisal unless otherwise provided for by contract between such corporation and its grantee.

(Act approved March 7, 1905, § 4.)

3901. Nothing in this Act shall be deemed to limit or effect anything contained in the act of the sixth session of the Legislative Assembly, entitled, House Bill No. 132; "An Act to enlarge the powers of mining corporations to dispose of, sell, lease, mortgage, exchange, or otherwise convey, all or any part of the property of such corporations, and to authorize and empower such corporations to dispose of, sell, lease, mortgage, or otherwise

convey, the whole or any part of the property of such corporations, and to protect stockholders dissenting from such actions of such corporations." (Sec. 4409, *et seq.*)

(Act approved March 7, 1905, § 5.)

RECORDS.

Section 3902. Records of what and how kept.

Section 3903. Other records to be kept by corporations for profit, and others.

3902. (§ 540.) All corporations for profit are required to keep a record of all their business transactions; a journal of all meetings of their directors, members, or stockholders, with the time and place of holding the same, whether regular or special, and if special, its object, how authorized, and the notice thereof given. The record must embrace every act done or ordered to be done; who were present, and who absent; and, if requested by any director, member, or stockholder, the time must be noted when he entered the meeting or obtained leave of absence therefrom. On a similar request, the ayes and noes must be taken on any proposition, and a record thereof made. On a similar request, the protest of any director, member, or stockholder, to any action or proposed action must be entered in full; and such records must be open to the inspection of any director, member, stockholder or creditor of the corporation.

3903. (§ 541.) In addition to the records required to be kept by the preceding section, corporations for profit must keep a book, to be known as the "Stock and Transfer Book," in which must be kept a record of all stock; the names of the stockholders, or members, alphabetically arranged; instalments paid or unpaid; assessments levied, and paid and unpaid, a statement of every alienation, sale or transfer of stock made, the date thereof, and by and to whom; and all such other records as the by-laws prescribe. Corporations for religious and benevolent purposes must provide in their by-laws for such records to be kept as may be necessary. Such stock and transfer book must be kept open to the inspection of any stockholder, member or creditor.

EXAMINATION OF CORPORATIONS, ETC.

Section 3904. Chapter and Article may be repealed.

3904. (§550.) The legislative assembly may at any time amend or repeal this part, or any Title, Chapter, Article, or Section thereof, and dissolve all corporations created thereunder; but such amendment or repeal does not, nor does the dissolution of any such corporation take away or impair any remedy given against any such corporation, its stockholders, or officers, for any liability which has been previously incurred.

And every corporation may extend the period of its existence for an additional term not exceeding twenty years, after the expiration of the period for which it was formed, as follows: Such extension may be made at any meeting of the stockholders or members called by the directors expressly for considering the subject, if voted by stockholders representing two-thirds of the capital stock, or by two-thirds of the members, or be made upon the written assent of that number of stockholders or members. A certificate of the proceedings of the meeting upon such vote, or upon such assent, shall be signed by the chairman and secretary of the meeting and a majority of the directors, and be filed in the office of the county clerk where the original articles of incorporation were filed, and a certified copy thereof in the office of the secretary of state, and thereupon the term of the corporation shall be extended for the specified period.

4272. (§ 891.) The capital stock of such corporation shall consist of such sum as may be named in the articles of incorporation, in shares of one hundred dollars each; such shares shall be regarded as personal property. An installment of ten per centum on each share of stock shall be paid at the time of making the subscription, and the residue thereof shall be paid in installments, not exceeding twenty-five per centum on the capital stock, which installments shall not be called for more frequently than once in three months, and shall be payable at the principal office of the corporation to such persons as may be required by the directors.

4273. (§ 892.) If any installment of stock shall remain unpaid for sixty days after the time specified for payment thereof, whether such stock is held by the original subscriber or his assignee, trustee or successor in interest, the directors may sell the stock so unpaid at public auction for the installment then

due thereon, first giving thirty days public notice of the time and place of sale in some newspaper of general circulation in this State and by written notice sent by mail within five days after default made, to each stockholder who is in default and whose name appears upon the books of the corporation, directed to him at his place of residence, or if that is not known to the secretary, then to his address as last reported by the secretary of the corporation; and if any residue of money shall remain after paying the amount due on said stock, the same shall, on demand, be paid over to the owner; but where any stock shall have belonged to a person deceased, the claim for installments shall not be liable to sale hereunder until a failure by the personal representative of the deceased owner to pay the installments due in regular course of administration.

4274. (§ 893.) The persons named in said articles of incorporation, or a majority of them, shall be authorized to order books to be opened for receiving subscriptions to the capital stock of said corporation, at such time or times and at such place or places as they may deem expedient, after having given at least thirty days' notice in a newspaper of general circulation in this state, of the time and place of opening books; and as soon as five per centum on the capital stock shall be subscribed, they may give like notice for the stockholders to meet at such time and place, within the state, as they may designate, for the purpose of electing five or more directors, who shall continue in office until the time fixed for the annual election, which time shall be within six months from the date when such directors were elected, and until their successors are elected and qualified; at the time and place appointed directors shall be elected in the manner provided in section 3835 (436) of this code.

After the first election of directors, no person save the personal representatives of deceased persons, as aforesaid, shall vote on any share on which any installment is in default by reason of the non-payment thereof, after the expiration of the thirty days' notice of sale hereinbefore provided for. The persons named in such articles, or such of them as may be present, shall be inspectors of such election, and shall certify what persons are elected directors, and appoint the time and place for holding their first meeting. A majority of said directors shall form a board and be competent to fill vacancies therein, make by-laws, and transact all business of the corporation. The directors, before entering upon their duties, shall each take an oath or affirmation faithfully to discharge his duties; and they may from time to time make such dividends of the actual net profits of said corporation as they may think proper, and shall hold their offices until their successors are elected and qualified.

4275. (§ 894.) Every railroad corporation has power:

1. To cause such examination and surveys to be made as may be necessary to the selection of the most advantageous route for the railroad; and for such purposes their officers, agents, and employes may enter upon the lands or waters of any person, subject to liability for all damages which they do thereto.

2. To receive, hold, take, and convey, by deed or otherwise, as a natural person, such voluntary grants and donations or real estate and other property which may be made to it to aid and encourage the construction, maintenance, and accommodation of such railroad.

3. To purchase, or by voluntary grants or donations to receive, enter, take possession of, hold, and use all such real estate and other property as may be absolutely necessary for the construction and maintenance of such railroad, and for all stations, depots, and other purposes necessary to successfully work and conduct the business of the road.

4. To lay out its road, not exceeding in width one hundred feet on each side of its centre line, unless a greater width be required for the purpose of excavation or embankment, and to construct and maintain the same, with a single or double track, and with such appendages and adjuncts as may be necessary for the convenient use of the same.

5. To construct their road across, along, or upon any stream of water, watercourse, roadstead, bay, navigable stream, street, avenue, or highway, or across any railway, canal, ditch or flume, which the route of its road intersects, crosses, or runs along, in such manner as to afford security for life and property; but the corporation shall restore the stream or watercourse, road, street, avenue, highway, railroad, canal, ditch or flume thus intersected to its former state of usefulness, as near as may be or so that the railroad shall not unnecessarily impair its usefulness or injure its franchise.

6. To cross, intersect, join, or unite its railroad with any other railroad, either before or after construction, at any point upon its route, and upon the grounds of such other railroad corporation, with the necessary turnouts, sidings and switches, and other conveniences in furtherance of the objects of its connections; and every corporation whose railroad is, or shall be hereafter, intersected by any new railroad, shall unite with the owners of such new railroad in forming such intersections and connections, and grant facilities therefor; and if the two corporations cannot agree upon the amount of compensation to be made therefor, or the points or the manner of such crossings, intersections, and connections, the same shall be ascertained and determined as is provided in title VII., part III., Code of Civil Procedure.

7. To purchase lands, timber, stone, gravel, or other materials to be used in the construction and maintenance of its road, and all necessary appendages and adjuncts, or acquire them in the manner provided in title VII., part III., Code of Civil Procedure, for the condemnation of lands; and to change the line of its road, in whole or in part, whenever a majority

of the directors so determine, as is provided hereinafter; but no such change must vary the general route of such road as contemplated in its articles of incorporation.

8. To carry persons and property on their railroad, and receive tolls or compensation therefor.

9. To erect and maintain all necessary and convenient buildings, stations, depots, fixtures, and machinery for the accommodation and use of their passengers, freight and business.

10. To regulate the time and manner in which passengers and property shall be transported, and the tolls and compensation to be paid therefor within the limits prescribed by law, and subject to alteration, change, or amendment by the legislative assembly at any time.

4277. (§ 896.) Every railroad corporation shall be required to complete fifteen miles upon each of its lines, branches, or extensions, each year subsequent to the passage of this title in the case of companies already organized, and each year subsequent to the filing of articles of incorporation in the case of corporations hereafter organized. But organization under this chapter shall not be deemed to confer any right to any portion of its line as designated in its articles of incorporation on which a preliminary survey and location shall not have been made, and if such corporation shall fail to comply with the requirements of this section, it shall forfeit its charter and all

the rights and privileges conferred by said articles as to any incomplected portion of its line of road. Each railroad corporation shall complete the whole line of it sroad within five years from the passage of this chapter, in the case of corporations already organized, and within seven years from the date of filing articles of incorporation in the case of corporations hereafter organized. Upon the written application of any county attorney of a county through which the line of said road would pass, made to the district court, setting forth the alleged cause of such forfeiture, it shall be the duty of such court, after notice to the corporation, to examine the cause, and if, in its judgment, sufficient cause exists for such forfeiture, to declare and enforce the forfeiture.

4278. (§ 897.) Any railroad corporation now or hereafter organized under the laws of this state, for the purpose of building railroads which extend upon Indian or military reservations within this state, shall not forfeit its charter, or any rights or privileges, by reason of its failure to build and complete any portion of its road upon such reservations, until a grant of a right of way therefor has been obtained from the United States, or any parties authorized in that behalf, and thereafter the provisions of this chapter shall be applicable to said corporations.

4279. (§ 898.) Whenever any corporation organized under this chapter shall find it necessary for the purpose of avoiding annoyance to public travel, or dangerous or difficult curves or grades, or unsafe or unsubstantial grounds or foundations, or for other reasonable causes, to change the location or grade of any portion of its road, such railroad corporation is hereby authorized to make such changes, not departing from the general route prescribed in the articles of incorporation.

4280. (§ 899.) Any corporation organized under this chapter shall have power to borrow money on the credit of the corporation to an amount not exceeding its authorized capital stock, at a rate of interest to be agreed upon by the respective parties, and may execute bonds therefor in sums of not less than one hundred dollars, and secure the payment thereof by mortgage or pledge of the property and income of such corporation. And if the said mortgage shall so provide, it shall be and remain a valid lien upon all of the property of said corporation of whatever kind then existing, or that may thereafter be by it acquired, irrespective of the law now in force relating to chattel mortgages, and the same shall be taken, held and enforced in the same manner as mortgages upon real estate now are held and enforced.

4281. (§ 900.) Any such corporation may acquire by purchase or gift any lands in the vicinity of its road or through which the same may pass, so far as may be convenient or necessary to secure the right of way, or such as may be granted to aid in the construction of such road, and convey the same in such manner as the directors may prescribe, and all deeds and conveyances made by such corporation shall be signed by the president, under the seal of the corporation.

4282. (§ 901.) It shall be lawful for such corporation, whenever it may be necessary in the construction of its road to cross any road or stream of water, to divert the same from its present location or bed; but such corporation shall, without unnecessary delay, place such road or stream in such condition as not to impair its former usefulness.

4283. (§ 902.) Every such corporation shall, as soon as convenient after its organization, establish a principal office at some point on the line of its road, and may change the same at pleasure, giving public notice in one or more newspapers in the state having the largest circulation, and notice to the secretary of state of such establishment or change.

4284. (§ 903.) Any such corporation is hereby authorized to construct, maintain and operate a telegraph line along its road. The provisions of this chapter concerning the grant for station buildings, work shops, depots, machine shops, switches, sidetracks, turn-tables and water stations shall not apply to mineral lands of the United States, or to lands reserved by the United States, nor to any lands as against the United States.

4285. (§ 904.) Nothing in this Chapter shall be construed to make the State, or any municipality therein, liable for any debts or obligations of any character which may be contracted by such corporations.

4286. (§ 905.) In every case the liability of the corporation to a servant or employe acting under orders of his superior, shall be the same in cases of injury sustained by default or wrongful act of his superior, or to an employe not appointed or controlled by him, as if such servant or employe were a passenger. See also Act approved January 16th, 1905.

Criswell vs. M. C. Ry. Co., 18 Mont. 167.

4287. (§ 906.) If the amount of the capital stock shall be found insufficient to enable any such corporation to construct its road, it shall be competent for the directors upon a vote of the stockholders, to increase the stock to such sum as shall cover the expenses of the construction of its road.

4288. (§ 907.) Any such corporations may accept the provisions of any act of congress providing for the creation of bodies corporate for the purposes aforesaid, but such acceptance shall not impair or affect the legal or equitable rights of any creditor as they exist at the time of such acceptance.

4289. If any railroad corporation within this State shall ask, charge, or demand any exorbitant rate of compensation for the transportation of any freight, baggage, express matter or passenger, or make any unjust discrimination in its rates, or shall neglect to provide comfortable and convenient cars or coaches for the transportation of its passengers and their baggage, or safe cars for the transportation of express matter and freight, or shall use any highly inflammable oils for lighting any car on its passenger trains or shall wilfully neglect to keep a table of its passenger tariff and rates of freight conspicuously posted in each depot within this State, or fail to light its track in any City in this State or shall transport within this State on any of its passenger cars, any oil, vitriol, gun powder, lucifer matches, nitro glycerine, glynon oil, nityroleum or blasting oil, or nitrate oil, or powder mixed with
